Jr. Falcons lose to Guelph on late goal

The Georgetown Junior Falcons gave up a late goal that resulted in a 3-2 victory for Guelph in a junior soccer match played at Cedarvale June 15.

It was a game the Falcons perhaps could have won, had the team kept up their well-organized style until the last kick of the match.

The Falcons got off to a good start as the home side looked very sound, and a corner kick from the left side ended with Bernard heading a shot

just over the crossbar.

In a very fast exchange, J. Wallraven worked the ball in past three defenders and scored with a fierce shot to the far corner.

A fine display of goalkeeping by Guelph's G. Brown prevented any further scoring before the halftime break.

Following the break, Guelph evened the score at one on a penalty kick.

However, Wallraven again carried the ball down, and no one seemed able to stop him as he scored

another goal for the Falcons.

After this, Georgetown had another good opportunity as Carlisle took a long shot that Brown safely deflected over the crossbar.

Georgetown managed to put the ball in the net with another long shot, but it was called back on an offside whistle.

After being awarded a free kick at the other end, Guelph scored to even the score at two.

Nearing the end of the game, a Guelph player managed to squeeze

the ball past the Georgetown defence and score that proved to be the deciding marker.

The Falcons are certainly capable of playing well, and it is apparent they are well coached. All that is perhaps required in the concentration it takes to play a full 90 minutes of the game.

The standard of play shown by both sides in the game with Guelph would have done credit in many senior matches.

Derby organizers find something fishy

In an unprecedented move, the administrators of the Molson Export Big Fish Contest have plucked the prizes from two of the top 1986 entries.

Minnesota resident, Robert Skuza originally claimed to have caught a muskellunge in Rainy Lake that measured 49 3/4" (126.363 cm.) in length. His entry form stated the fish had a 30 3/4" (78.105 cm.) girth.

His father, Ellard Skuza, entered a fish supposed to have a 48 3/4" (123.825 cm.) length and a 30" (76.2 cm.) girth. Photos submitted with both entries did not seem to corroborate the huge size claimed for the two fish, but no proof to the contrary could be produced, despite and intense investigation by O.F.A.H. staff.

Falling any hard evidence when

they met in mid-December, the Federation's Big Fish Contest judges and officials felt they had no choice but to award first and second places to the two Skuza fish. Federation staff continued to investigate their suspicions, and were pleased to receive assistance from knowledgeable musky anglers in both the United States and Canada.

Finally, during another telephone

call from Mr. Males, Robert Skuza admitted both he and his father must have made mistakes; their fish were not as large as claimed on their entry forms. Mr. Skuza agreed to return the Berkley rods and reels, and cash prizes he and his father had been awarded. The first place prize of an Evinrude electric fishing motor had not yet been delivered.

A Look Back
QUESTION
 Name the man who was acclaimed to the position of president with the Georgetown Raiders Intermediate A hockey club, replacing Neil Cotton 10 years ago.

ANSWER
 Bob Hooper

Swimming registration

Registration for Summer Swimming Lessons begins Wednesday, June 24 at the Georgetown Indoor Pool and the Prospect Park Pavilion in Acton. Registration begins at both facilities at 9 p.m.

Leisure Lines
 RECREATION & PARKS DEPARTMENT
 877-5185 493-2411

As the schools prepare to finish another year, the Recreation and Parks Department is preparing for the training program of our part-time summer staff. Over 65 staff members from Aquatics and Summer Programs will be actively participating in various sessions and workshops that will assist them in performing their duties this summer.

These positions involve a tremendous amount of responsibility. Each staff member is ultimately responsible for the lives and safety of the children of Halton Hills. It is important to our Department to feel confident that our staff are adequately prepared for their positions.

A number of resource people have been scheduled to conduct specific workshops throughout next week.

Susan Delaney of the Halton Regional Police Department is conducting a session on Safety - Making a Playmate a Safe One. Susan will also be attending our Leadership Development Program later on during the summer.

Mr. Grant Gold of Danson, Zucher and Associates will be conducting a session on the legalities associated with aquatics and play programs. Mr. Gold has been a practising lawyer since 1981 and has held the following positions: the Red Cross Provincial Water Safety Chairman, Chairman of the National Red Cross

Preschool Committee and the Red Cross representative on the Royal Lifesaving Society of Canada Council.

All of our programs are open to all children and that includes any individual with a Special Need. Catherine Earle Kirby will be talking to our leaders and supervisors about how to integrate children with special needs into our programs. Ms. Earle Kirby is an instructor at Sheridan College where she teaches students to work as specialized teacher's aides.

Other highlights of this summer's training program includes Emergency First Aid Certification, Cardio-Pulmonary Resuscitation Certification (CPR), Public Relations, How to Get the Most Out of Yourself and Your Kids and specific skill development Areas.

Our Training Goals:
 To develop an informative, well balanced and organized training program that will generate a confident and enthusiastic staff member.

We are excited about this upcoming summer. We take our responsibility seriously and hope that you will join us this year.

Let the Good Times Roll this summer with the Halton Hills Recreation and Parks Department. For information about our activities call 877-5185 ext. 275.
