## Acton fair is one of the best

Psychiatrists, so I'm told, sometimes play a game with their patients. During this game the Dr says a word and the patient is supposed to immediately respond with the first thing that comes into his/her mind - such as Psychiatrist "dark" Patient "night" etc.

I would like to try this game out with you readers, however because we are separated by this newspaper, some new rules will have to apply. When I give the word, you jot down your response and then read on for what I wanted you to think.

FALL is the first word FAIR is the second word and ACTON is the final word that I'm going to give you.

To the word "fall" you should have thought of a time during the year that allows you to relax and enjoy yourself following a busy summer and before the harshness of winter sets in.

To the word "fair" you should have thought of a place where you

will drive his/her tractor along the could do this relaxing and have a great deal of fun at the same time.

And of course, "Acton" should have immediately conjured up a track in an effort to pull the heaviest load the farthest distance. (This type of event is also performed by people using A.T.V.'s all terrain vehicles) and trucks.

There are also other major events during the fall fair, including the selection of Miss Acton for 1988. This event is just part of a gala night of entertainment which always attracts large crowds of young and old.

Another highlight of the fair is the giant beer garden where good music is enjoyed by the patrons while they feast on great roast beef sandwiches and quench their thirst with one of a wide variety of beverages. Yes, it's that time again - time for midways, cotton candy and all the other ingredients that go into making a fall fair part of your planned activities during this time of year - and the Acton Fall Fair is one that you shouldn't miss!
