

FALL

Sale Ends
Thurs., Sept. 24/87

PROJECT TIME

**ARMSTRONG SUSPENDED CEILINGS
ARE PROBLEM-SOLVERS
WITH STYLE!**

Ceilings too high — suspend a new one at any desired height. Exposed ducts, pipes, or wires — cover them up with a new suspended ceiling. Rooms too dark — include energy-efficient fluorescent light fixtures positioned where you need them. All this, and you still retain access to the area above by lifting a panel out of place. Installation can be done easily over a weekend, without special tools or previous experience. Suspending an Armstrong ceiling is as easy as one, two, three.
