This efficient contemporary design is ideally suited to a medium frontage lot. Rows of windows and horizontal siding adorn this four bedroom 2,178 sq. ft. home.

Directly off the impressive two storey foyer is a sunken living room with vaulted ceiling, masonry fireplace and sliding glass access to rear patio. The step saving U-shaped kitchen with abundant counter and shelf space, easily serves the dining room and sunny breakfast room. This open plan design promotes a feeling of spaciousness and creates a large casual living area. The sunken family room boasts a corner fireplace and a glass walk-through to the garden. The secondary entrance from the double car garage opens to handy mud/laundry room. This space serves as a catchall rainsoaked clothes and grimy laundry. A powder room just around the corner allows for quick clean-up before entering the main living area.

A sweeping curved staircase ascends to a gallery which views the foyer below. A luxurious master suite features his/her closet walls, linen storage and ensuite with raised whirlpool spa, twin vanity and shower. The three additional bedrooms, each with large closet storage, share a three piece bathroom with tub.
