This front-to-rear split level home provides over 1,900 sq. ft. of well designed living space on three levels.

The weather-protected main entry leads up to a spacious L-shaped living/dining room combination, which features a cantilevered hearth fireplace and full floor-to-ceiling windows.

A well planned U-shaped kitchen/dinette combination overlooks an expansive family room with a masonry fireplace and a wide sliding glass walk-through to a rear patio. Secluded off the family room is a quiet den, which may be used as an additional bedroom or office. The lower level is complete with a three piece bath with shower and convenient laundry room.

Upstairs, the central hallway, brightly illustrated by a skylight, opens to three bedrooms. The master bedroom with distinctive corner windows, offers a large walk-through closet and three-piece ensuite with shower. The two additional bedrooms each with ample closet space share a full bath with raised tub.
