Stately brick, grid windows and decorative shutters adorn this 1,761 square foot, three bedroom, full basement bungalow. A deep weather protected entry opens to the main foyer. To the right, a large living/dining room combination with bay window provides space for formal and intimate entertaining. Directly ahead is an expansive family room with raised hearth fireplace and sliding glass access to a rear patio. An efficient step-saving galley kitchen with abundant counter and shelf space adjoins a bright breakfast room. The secondary access from the double car garage opens to a handy main floor laundry room and provides a direct, convenient route to the kitchen for unloading groceries.

The bedrooms are positioned away from the noisy traffic areas. The master bedroom features a large walk-in wardrobe and three piece ensuite with shower. The two additional bedrooms, each with ample closet storage, share a main bathroom with large soaking tub. Send for Canada's largest plan book with over 300 designs, only \$9.45, including shipping.
