

REAL ESTATE

...are worth more than just a quick glance.

Have you taken a good look at our Real Estate pages lately? You'll be surprised at just how many ads we publish. When it comes to Real Estate, "the more the merrier" is true! More potential buyers... more sellers! More people advertising things "for sale"... and somehow, we get more people looking!

That's the way it works! It takes both buyers and sellers... and we've got them by the thousands! Buying or selling, the first place to look is in our Real Estate Pages!

Elegant baths within the reach of budget conscious homeowners

Sumptuous spas used to be a retreat reserved only for the rich.

Now, though, almost everyone can make their bathrooms sophisticated and elegant—even on a tight budget.

Bathroom fixtures, for example, have become much more stylish in the past decade, with new shapes and a palette of matching designer colors.

Wallcoverings, too, have been greatly updated—including a wide choice of practical vinyl styles that look just like expensive grasscloth, string or other fabric wallcoverings.

Even more opulent and exciting are the revolutionary new "Marble Verre," decorator glass marble tiles that look and feel just like genuine marble.

Unlike real marble, which is cost-prohibitive for most homes, these economical decorator glass tiles are a cinch for most do-it-yourselfers to install. Special self-adhesive tabs create a permanent bond to any wall surface.

Manufactured by Mechanical Mirror

Works, Inc.—the nation's oldest and most diversified designer and manufacturer of decorative mirror products—Marble Verre tiles have the same cool, smooth feel and high-gloss sheen as genuine marble.

Unlike real marble, however, they are easy to clean and are not adversely affected by stains or moisture.

The tiles—in 12" x 12" and 4" x 4" sizes—are created by a unique new process that Mechanical Mirror Works developed after 20 years of research. Eight beautiful colors are available to complement any decor.

Besides enhancing baths, the luxurious glass marble tiles also impart elegance in entryways and halls, and on accent walls throughout the house.

Mechanical Mirror Works also manufactures 36" x 12" Marble Verre pedestals, for showcasing plants or art objects, and 16" x 16" cubes, for elegant, yet practical end tables.

Tailor kitchen to household needs

Have you ever muttered in disgust while emptying a cabinet only to find the desired item buried in back? Have you ever snarled at your oven? Have you ever dreamed about a new kitchen?

You're not alone. The National Kitchen & Bath Association estimates that millions of people share your frustrations, and at least three million of them plan to do something about it by remodeling.

The challenge is not to replace, but to create a kitchen superior to its predecessor—a kitchen that works... a kitchen to be proud of!

According to kitchen design experts, successful kitchen design begins by identifying who uses the kitchen, and for what purposes.

Is it a common family gathering point, or the domain of a gourmet chef? When you entertain, do guests gravitate toward the kitchen or are caterers in full command? Are food preparation activities shared by a spouse or children?

In the evaluation process, cooking needs are universally recognized at the starting point.

Whether you cook every day, several times a week or rarely will affect the

size, layout and type of equipment in your new kitchen.

For example, couples who share meal preparation activities may wish to include such features as two sinks (one for cleanup and one for washing produce), double ovens and built-in counter savers scattered throughout the kitchen.

If your entertaining style is casual, you might consider an entertainment bar built right into an island counter.

On the other hand, catered affairs may necessitate the installation of warming drawers, multiple ovens and wide shelved refrigerators that can accommodate party trays.

If the household includes children or teens, a microwave oven for making after-school snacks or a refrigerator with exterior ice dispenser are considerations.

Once you have related your needs to your lifestyle, decision-making becomes easier. The National Kitchen & Bath Association has produced a 32 page, illustrated booklet to help guide consumers through the kitchen installation process, from compiling a wish list to exploring the many options in cabinets, appliances, plumbing and ventilation.
