Magazine campaign is in full swing

Outlook Special

Although only with some, the magazine campaign is now in full swing. Yet oddly enough, only one week remains for students to canvass people's houses.

The campaign has now been running for 10 years at GDHS. Each year the goal seems to get higher. This year, the goal is \$45,000. Seemingly large, this figure is probably attainable, seeing how the school sold approximately \$42,000 worth of subscriptions last year.

If campaign organizers had their wish come true, GDHS would have, by the end, sold over \$50,000 worth of magazines. This would place the school second or first in Canada. As it stands now, the high school will probably rank in the top ten in Canada, as it has over previous years.

The money raised will go a long way. Profits will go towards student activities and a charity of the

school's choice. This year, students council has chosen Halton Hills Big Brothers and Big Sisters as the recipients.

Another money-seeking event, otherwise known as a fundraiser, was the recent CFNY Video Roadshow held at Centennial Middle School. The profits from the one night social gathering held last Saturday, April 2, will go to the Centennial Alumni Show/Concert Choir, who were the organizers of the sauna, eh dance.

You will be able to hear this talented group of performers in May when they will perform their Spring Concert at the John Elliott Theatre. Hopefully conditions will be a tad more pleasant compared to conditions in the gym. While everyone, well most anyways, had a good time, the dance as previously mentioned, was extremely hot. For those of you who are dieting and missed out, you missed a golden opportunity to lose your entire body weight.

No scores have been reported, except in badminton, as teams have just gotten underway. A few of these teams are rugby, baseball, girls soccer and track and field.

Acton High

By Lesley McCrystal

Yesterday a very special person attended AHS for a presentation on a very important, interesting subject. The topics included sex roles, violence and the media. Maude Barlow is the former advisor for Prime Minister Trudeau. She is the founder and past president of Canadian Coalition against media pornography. Ms. Barlow is a member of the national board - council of Canadians. In 1987 Ms. Barlow was listed in the Who's Who of Canadian women. Maude Barlow is a consultant working with all levels of government, educational institutions, broadcasting and private industry on the issue of employment equity, social change and values in education.

Ms. Barlow's presentation was very much worth seeing. We thank her very much for sharing her skills and thoughts on such an important topic, which very much needs to be recognized.

Last Thursday AHS had a vocal jazz assembly. There were 20 students involved in the assembly. All students were from Grantham High School in St. Catharines. Two assemblies were held, one for the juniors, another for the senior classes. Each presentation lasted for a half hour. We enjoyed listening to them very much. We thank Mr. McLaughlin for having his students perform in front of our students.

SPORTS

Last week our Acton swim team members set new records and brought home gold from the Halton swimming championships. Congratulations to all swim team members for their excellent performance.

This year up to date Acton swim team has set a total of 18 new Acton records.

Follows too close

A charge of following too close was laid at a 2 p.m. accident April 3 at Mountainview Road and Mullen Place. A 1984 blue Ford, driven by a 17-year-old Terra Coita man, was southbound on Mountainview Road, slowing and trying to locate a driveway. A 1977 orange Chevrolet, driven by a 17-year-old Georgetown man, was southbound on Mountainview Road, following too close to the Ford. The driver of the Chevrolet did not see the Ford slow down, jammed on the brakes, skidded and hit the Ford.

GHOST FLIGHT OF RL206

By Michael Swanson

950 s/n* 24" x 19 3/4" (No. ASXo1) \$120.00

Price subject to change with currency fluctuations.
Published from an oil painting.

Many words have been written about the tremendous success and demise of Avro's Arrow airplane and Orenda's Iroquois jet engine. They were the top performers of their day (1959).

Speed - just under mach 2.

Computer operated controls - fly by wire.

Service ceilings about 60,000 feet.

Engine thrust - approximately 26,000 lbs. each engine with afterburner on.

The second pencil signature on the print is that of Arrow test pilot, Jan Zurakowski, who flew the maiden flight of the first Arrow, RL201, and 23 hours, 10 minutes of the subsequent test flights.
