GET RID OF YOUR HOUSEHOLD HAZARDOUS WASTE

In your home there are products that need special care.

When you use hazardous products, you use them carefully. When you don't need them any more, you should dispose of them just as carefully. That's what the Household Hazardous Waste Depot is all about - an opportunity to clear potentially dangerous waste out of your home, and protect our environment - water, land and air - at the same time. If hazardous products are thrown in the regular garbage, they can injure sanitation workers and cause long-term environmental problems. Bring your Household Hazardous Waste to the depot, and it will be dealt with by experts, at no cost to you.
