THE BOOK ON BUYING MAKES SURE YOU LIVE HAPPILY EVER AFTER.

Buying a home is a large, important investment. One that demands an organized plan of action.

That's why Royal LePage has created the Home Buyer Program. This invaluable guide, customized specifically to meet your needs, leads you step by step through the entire home buying process.

A comparative market analysis will tell you exactly how much other houses with amenities similar to your requirements have sold for.

We've even included a pre-approved mortgage application. When approved, it will give you the added confidence of knowing just how much you can afford to spend.

The Royal LePage Home Buyer Program also provides you with legal information, financial worksheets and a list of important buying tips.

See your Royal LePage representative. Make this large investment a pleasant and predictable experience.

**Now is the time to take the first step to Home Buying or Home Selling.
Call Royal LePage today. It's good to know someone who knows.**
