

It's furnace checkup time

(NC)—It's hard to turn your thoughts to winter with summer scarcely gone. Yet, soon there'll be chilly nights and morning frost. This is a good time to give your heating system an hour or so of attention, and to arrange for a serviceman to call and make sure it's ready for cold weather. If you get this nuisance task out of the way you'll have beaten the seasonal rush that always comes with the first cold snap. Then you can relax and enjoy the golden days of fall that lie before us.

A serviceman should perform the following checks before your furnace goes into operation for the winter:

- Heat exchanger. The serviceman will clean this and check for leaks. (This is rarely a problem on newer fur-

naces. Many are sold with lifetime warranties on the heat exchanger).

- Electrical components. Must be checked for short circuits.
- Pilot light (if you have one) this should burn strongly with the right colour. The serviceman will check the nozzle.
- Gas lines. These must be examined for leaks.
- Motor. This will be lubricated, if necessary. Many newer motors are sealed and don't require lubrication.
- Filter. You can look after this yourself. Your filter needs to be cleaned regularly. Some types can be washed with water and a little detergent. Others must be replaced.

(Hwy. 25) THE PLANK ROAD (1850's)

In the 1850's Acton residents were very concerned about transportation. From the Guelph advertiser 24th January 1850 — "A meeting was held Jan. 11, 1850 in the school house of the village of Acton, to discuss the state of our roads. Rev. H. Denny was called to the chair."

John Holgate, John Holt and Matthew Swann, seconded by Rufus Adams, put forth a resolution that the Second Line of Esquesing should be improved and that conferences should be held with the Joint Stock Company formed to build Plank Road from Bronte to Base Line of this township, to promote the extension of the Plank Road (Now Hwy. 25) to the village of Acton

Many thanks to Mark Rowe, President of Esquesing Historical Society, who provided the information for this article.
