### Watson family holds reunion

By KAY WILSON  
Norval Correspondent  
NORVAL-A family reunion of the descendants of Robert Watson Sr. was held on Sunday, Oct. 16 at the home of Joyce and John Hutton, RR2 Norval, assisted by Mrs. Dorothy McLean.

Robert Watson Sr. lived in Norval from 1849 to 1917. He died at the age of 68 and was buried beside other family members in the old St. Paul's Anglican Church cemetery.

Thirty family members enjoyed a potluck lunch and getting reacquainted. Later in the afternoon they visited the old cemetery and were pleased to see the start that has been made in clearing the ground by LACAC (Local Architectural Conservation Advisory Committee). Financial donations will be made toward this project when restoration plans are finalized.

## Go train passengers put on their honor

This week, a new ticketing system called Proof of Payment, or POP, has put GO Train passengers on their honor.

Under the new system, which took effect on the Lakeshore line Sunday, and on the weekday-service Georgetown, Milton, Richmond Hill, Bradford, and Stouffville lines Monday, GO Train riders will no longer have to deposit their ticket or show their pass to an attendant when entering and exiting stations. Instead, they will need to produce proof of fare payment - a valid ticket or pass - only when asked to in spot checks by GO's transit enforcement officers.

The new system will mean more convenience for passengers, especially commuters who travel regularly on a monthly pass, GO Transit Chairman Lou Parsons noted. "Our monthly pass holders will find POP suits their needs

perfectly, as they will now be able to simply board the train on arrival at the station without lining up to show their pass to an attendant," he said.

Those who prefer to buy a ticket prior to each trip will also benefit. Currently, they must deposit a ticket half upon entering their GO station and again when exiting at their destination. "With the new system, passengers simply buy their ticket and old on to it," Mr. Parsons explained.

Brochures and instructional signs showing GO train users how the system works are posted at GO stations.

POP was introduced by GO in 1985 on the Milton rail line and has worked well there. GO expects the system to be equally successful across the full train network and is studying further expansion of POP to include the extensive GO Bus network.
