PLAN NO 1188-2453

**GRAND DESIGN BOASTS OCTAGONAL ROOMS**

A two storey entrance foyer with sweeping horseshoe shaped staircase creates a dramatic welcome to this three bedroom home. To the right is an octagonal living room with warming fireplace. The kitchen tucked in a greenhouse bay features a centre cooking island, desk organizer area, abundant counter work space and walk-in pantry. The kitchen opens to a bright breakfast nook and large family room. Direct access from the double car garage leads to a two piece bathroom, secondary staircase to the upper level, and laundry room with spacious counters for sewing or folding clothes. A convenient laundry chute from the bedrooms eases the collection of grimy clothes.

Retire upstairs to a lavish coffered ceiling master suite which has a cozy fireplace and walk-through wardrobe. The ensuite has a raised whirlpool spa and twin vanity with separate shower, toilet and additional basin. The two additional bedrooms share a three piece bathroom with tub. Potential for future expansion is easily accommodated in a 367 square foot bonus room which may be utilized as an additional bedroom or games room. The finished floor area of this design is 2,684 square feet.
