**PLAN NO 1888-2360**

**FAMILY CHARMER WITH UNIQUE FLOOR PLAN**

Brick and wood siding create exterior appeal in this three bedroom home. A two storey entry hall opens onto a sunken living room with dramatic coffered ceiling and warming fireplace. An adjoining octagonal shape dining room creates an elegant atmosphere for formal entertaining. Also, off the hall is a den and connecting two piece bathroom. This could easily double as a guest room. The gourmet kitchen featuring a centre cooking island adjoins a breakfast nook which opens to the rear patio. A second masonry fireplace enhances the sunken family room. Through the convenient main floor laundry/mudroom is direct access to the triple car garage. To accommodate a narrow lot, the garage may be built as a double car garage. Upstairs, the railed gallery views the entrance foyer below. Gracious double doors open to a large master bedroom and sumptuous ensuite with walk-in closet, his/her vanity, whirlpool spa and shower. The two additional bedrooms, each with roomy wall closets, share a four piece bathroom with twin vanity and tub. The finished floor area of this design is 2,549 square feet.
