**BAY WINDOWS HEIGHTEN OPEN PLAN DESIGN**

Traditional brick or wood siding exterior is accented by a large multipaned window bay and hip roof. The well-designed plan makes use of angled windows and flowing spaces to give this 1,640 square foot home the impression of being much larger. The formal entry leads to the open plan living room and dining room. The sunken living room features a bay window and warming masonry fireplace. The sunny breakfast nook with greenhouse windows adjoins the efficient kitchen and sunken family room. A sliding glass door from the patio opens onto the family room. The luxurious master bedroom has a cozy sitting bay, walk-in closet and three piece ensuite with soaking tub. The two additional bedrooms share a main bathroom with tub. Convenient double car garage opens to a main floor laundry/mudroom. Ample storage and potential for future expansion is available in the full basement. Send for Canada's largest plan book with over 300 designs, only \$9.95, including shipping.
