

Kids will have a ball making Hobby-Dough decorations

(NC)—If you have children or if you work with them... perhaps as a teacher, Brownie, Cub or 4-H leader... then you

know how much kids love doing crafts. Hobby-Dough, an exciting concept in dough sculpture, is a great activity

for encouraging creativity. Fun to do anytime, it's ideal for making holiday decorations. And you need look no further than your kitchen cupboard for the ingredients — flour, salt and cold water.

You can use cookie cutters or have the children design their own tiny angels, snowmen, animals or trees using the basic Hobby Dough Recipe. If

handled carefully once they have been baked, painted and sealed, these ornaments should last for years. Instant blending flour, available in a convenient shaker pack, is the ideal flour for Hobby-Dough because it's granulated and mixes easily for smoother results.

Hobby-Dough Recipe
 3/4 cup salt
 3/4 cup very COLD water
 2 cups ROBIN HOOD Instant Blending Flour

Mix salt and very COLD water together.

Fun to work with anytime, Hobby-Dough, made from flour, salt and cold water, is a great activity for encouraging creativity. NC

Merry Christmas

It's time for a new beginning. Let's turn the page with great expectations for health, wealth and happiness.
