Microwave Magic makes for Good Old Fashioned Eating

The modern technology of the microwave oven, teamed with the old fashioned homey foods of the past, make down to earth good eating a matter of minutes instead of hours.

Grateful for the food of the prairies, the settlers never threw anything away. One of the ingenious ways they enjoyed the last bits of bread was in pudding. . . a delicious dessert made with milk that offered warmth and nourishment. Today, it's possible to enjoy this slow baked pioneer favourite in short order thanks to the microwave oven. Along with other down home desserts, bread pudding is enjoying a comeback in trendy restaurants.

Yesterday cooks would be amazed at how fast bread pudding can be made in the microwave oven. They would also be surprised that APPLE BREAD PUDDING can be so simple with a little help from a full flavoured convenience product like JELL-O Vanilla Pudding and Pie Filling.

It takes all the guesswork out of making a custard for the pudding base.

Although you can use almost any plain bread or fruit nut bread you have on hand, our recipe uses egg bread. Raisins and apples add a wonderful texture, then the whole pudding is made cozy with a glaze of spices and brown sugar. A delight to serve on a cold fall day.

Another old fashioned treat adapted for microwave cook-

ing is SPEEDY CHOCOLATE FUDGE. The convenience of JELL-O Chocolate Pudding and Pie Filling mix teams with butter and milk for a no fail fudge that cooks in the microwave oven in less than 2 minutes. It's perfect for teenagers with hollow legs who love to "zap" their snacks in the microwave oven. - Take a few simple ingredients from an old fashioned recipe idea, add a little microwave magic and discover how easy it is to enjoy old fashioned good eating.

Nabisco Brands Ltd, makers of Milk-Bone® dog biscuits, introduces Minty Bones™, the dog treat that takes the bite off your pal's breath.

Tails are wagging over Minty Bones, the traditional bone-shaped biscuits with refreshing mint flavor in every delicious crunch. Nabisco's kennel tests prove that dogs up gums, scrape away plaque love the taste of mint. Dog owners liked the concept of the new biscuits, and more than 80 per cent indicated that they would treat their dogs to Minty Bones.

Besides tasting great, Minty Bones keep dogs' teeth and breath in mint condition. The hard, abrasive surface of the biscuit works like a toothbrush to help eliminate stains, firm Minty Bones is the "paws" that way.

refreshes Minty Bones are a big hit because of the mutual benefits. The dog gets a treat he loves, and the owner loves to treat the dog with a wholesome snack that promotes a clean, fresh mouth. Like all Milk-Bone products, Minty Bones are 100 per cent nutritionally complete.

Milk-Bone dog biscuits are the leading pet snacks in North America. In fact, they have been a pet snack staple for years. The crunchy bones were invented by a New York City dog lover in 1908, and in 1931 the name was purchased by Nabisco Brands Ltd.

Minty Bones are now available to hound offensive breath at leading grocers throughout Ontario. A package of medium-sized biscuits retails for \$1.99, a small price to pay for man's best friend.

In a dog-eat-dog world, a biscuit works like a toothbrush with little freshness goes a long way.

Quality Should Be Your First Consideration

Choosing a coat that is warm, looks good, and wears well is no easy task. Always choose a well made coat. Check the lining to see if it is hanging evenly. Choosing the right weave is also important for long wear. The softer the weave, the

more prone the coat will be to wear problems, especially pilling, and wear around the collar, cuffs, hem, and pockets. Look for a coat with a tightly woven, highly twisted weave. You spend a lot of time, consideration and money selecting a coat. And it makes good sense to follow it up with the same kind of care. Your professional drycleaner knows the right way to clean and finish your coat to add life and beauty. Protect your investment with regular care at your IFI member professional drycleaner.
