## SCRAMBLE

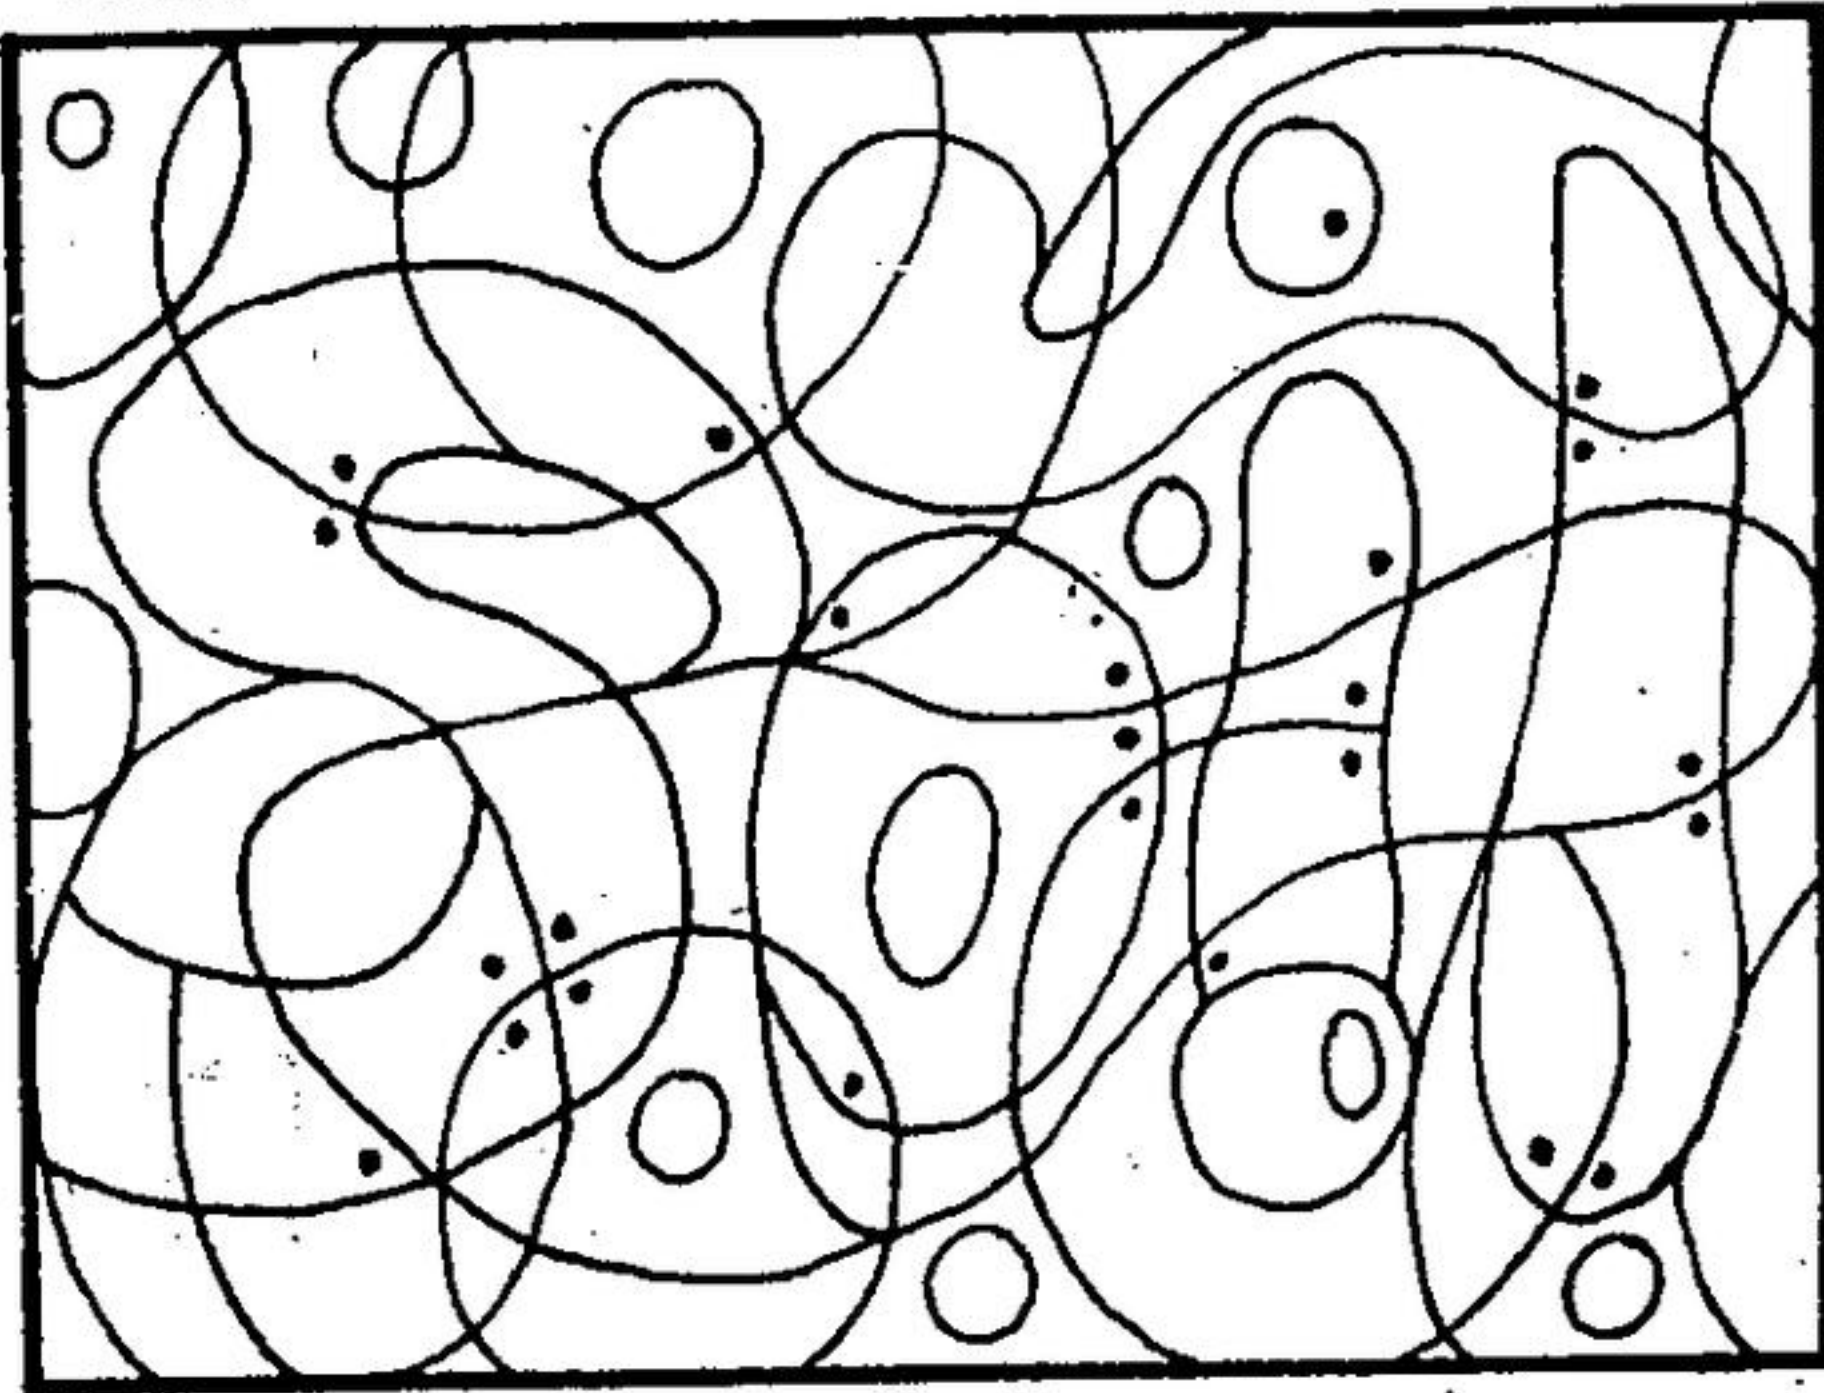

The figure below is actually made up of seven letters. First, figure out what the seven letters are; next, unscramble the letters and you'll discover something that affects our environment.

Answer: animals

## Dot Fill-in

Darken each area containing a dot and you'll discover a part of our environment which helps provide much of the food we eat.

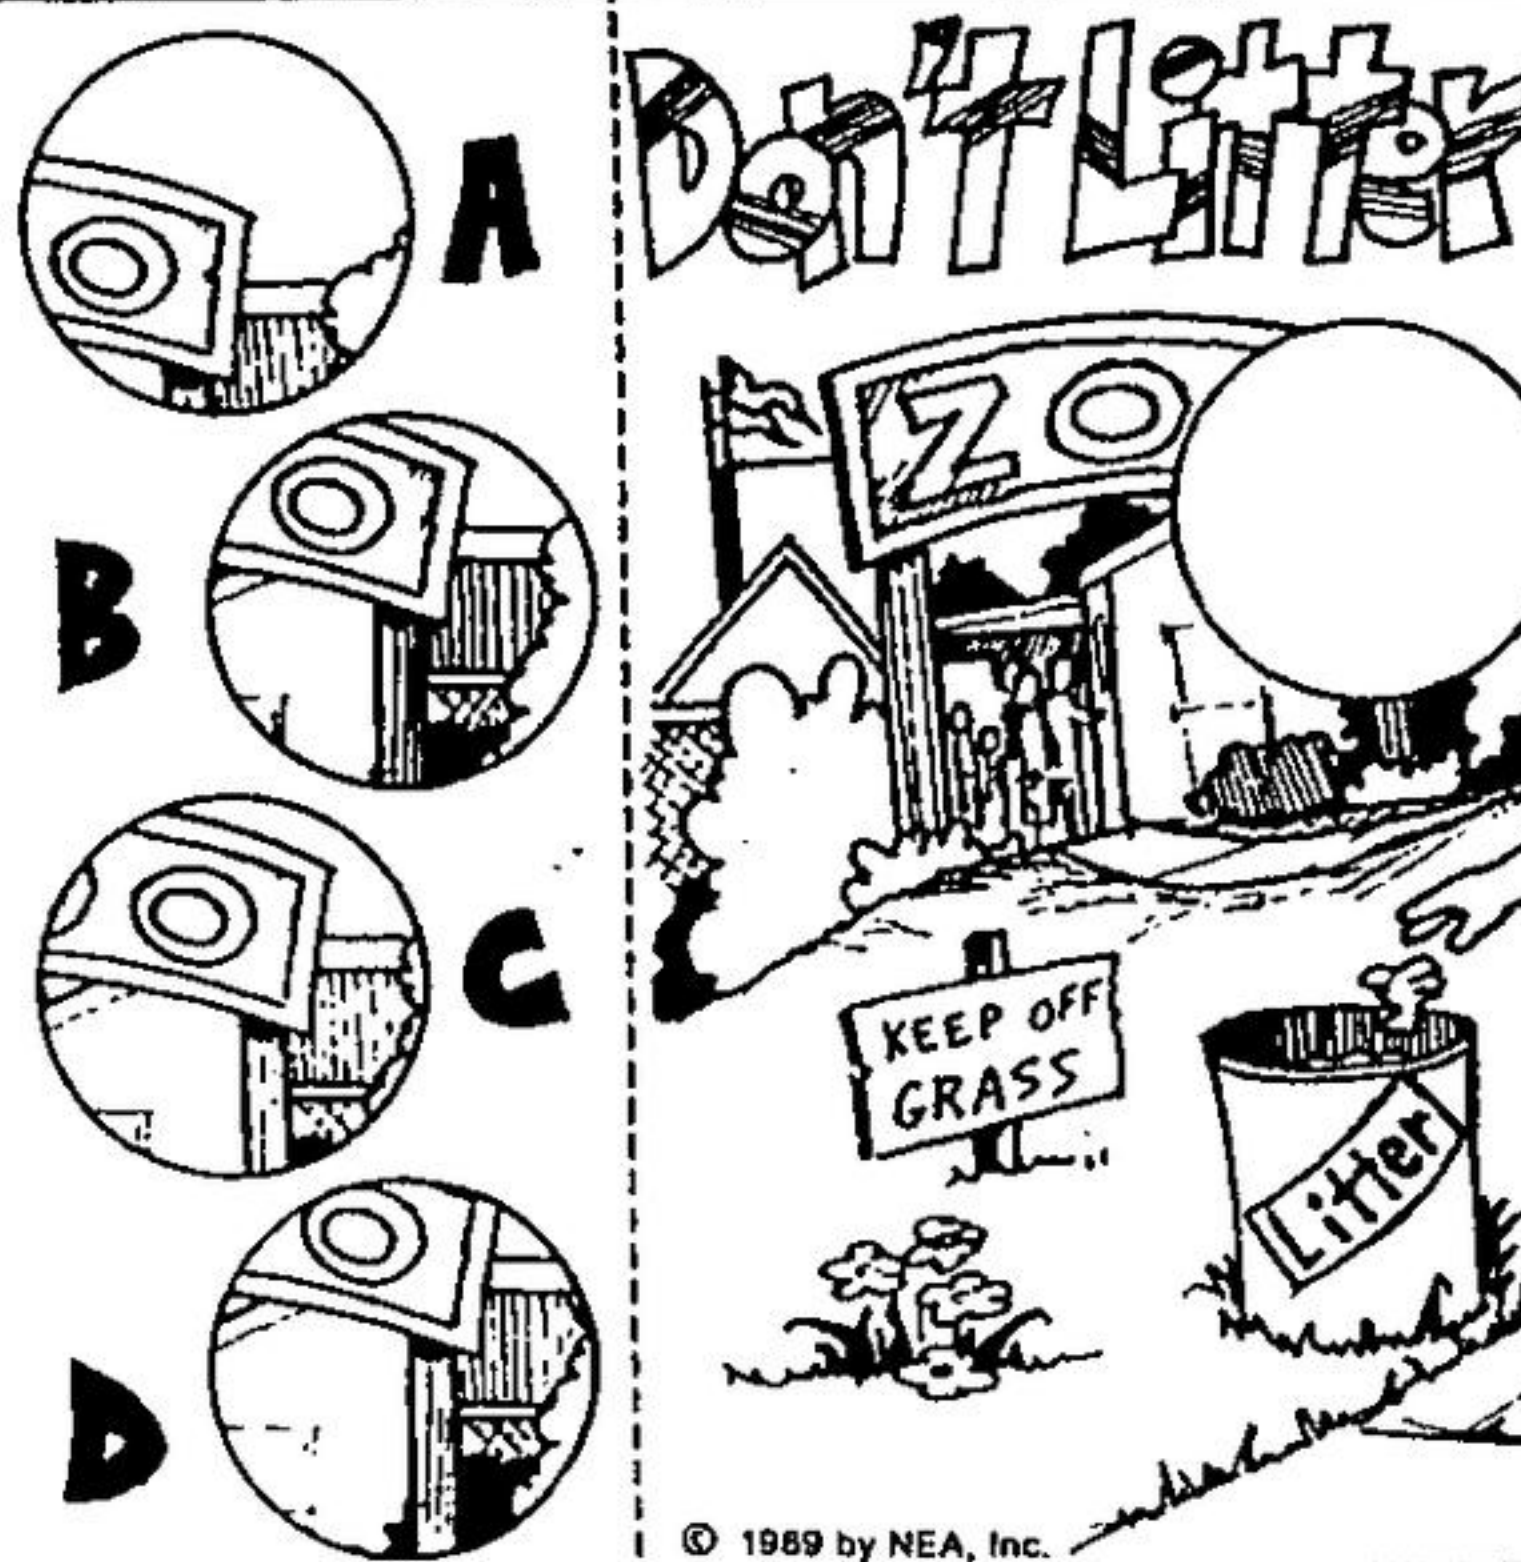

Answer: soil

## Mix-Up

Hidden below is the name of a very common source of air pollution. To find out what it is, darken all boxes containing the letter "P." The remaining letters, written in reverse order, will spell out the answer.

S	P	P	E	P	L
I	P	B	O	P	P
P	M	P	O	P	T
P	U	P	P	A	P

Answer: automobiles

Alfie Alligator, like most people, likes a clean environment. That is why he is careful not to litter. In this picture of Alfie, a piece is missing. Which of the puzzle pieces at left correctly completes the picture?

## RACE

See how quickly you can get the piece of waste paper into the waste-paper basket. If you can do it in less than a minute you're exceptional.

## P. Polluter

Complete this picture of Paul Polluter. Paul doesn't care anything about our environment. One of the rude things he does is throw trash out his automobile window as he's driving down the road.

## MYSTERY MESSAGE

Below is an important message about our environment. However, only a part of each letter appears, so you'll have to complete the letters in order to decode the message.

WE MUST EACH DO  
OUR PART IF WE  
ARE TO HAVE A  
HEALTHY WORLD.

Answer: We must each do our part if we are to have a healthy world.
