View of the rear exterior PLAN NO. 79-1530

INNOVATIVE SPLIT ENTRY DESIGN CAPTURES REAR VIEW

This three-bedroom split entry design is ideal for a gently sloping lot which allows for a spacious daylight basement. (Design can also easily accommodate a flat lot). The covered deck wraps the home and capitalizes on the view to the rear of the lot. Wide sliding glass doors and oversized windows throughout the home captures the panoramic view and maximizes on the natural light.

The design revolves around a hexagonal kitchen. The spacious counters and abundant counters make meal preparation an ease. The open plan living and dining room share a dominate, masonry fireplace. The centrally positioned fireplace optimizes furniture arrangement without obstructing the view. The master bedroom features a walk-through dressing room with roomy closets and a three-piece ensuite with soaking tub. The two additional bedrooms share a main bathroom.

The unfinished lower level provides 1,440 square feet for future development. This area is well suited for extra bedrooms or family room. To accommodate a narrower lot the home may be positioned rectangularly for a frontage of 48 feet.

The finished floor area of this unique home is 1,530 square feet.
