

Feel at home in a family atmosphere at Country Video

Owners Debi and David Tarzwell are striving to make Country Video and Games a place for people to come and enjoy an afternoon with the whole family.

Country Video and Games is located across from the Georgetown Golf Course on the Tenth Line and River Road in Georgetown.

Ten people are on hand to serve the public at Country Video and Games. Jackie Inglis is the store manager and Kati Marsland is the assistant manager of the store.

Video rentals at Country Video and Games are the cheapest in Ontario at \$1 for three days, Mr. Tarzwell says.

You can also rent Nintendo and Sega games or even buy or trade them.

But Country Video and Games

isn't just movies and computer games. The store also sells frozen yogurt and serves hot dogs, pogo sticks, sundaes, milk shakes and splits.

For the kids there is a miniature go-cart track and for anyone who fancies themselves an expert putter, there's an 18-hole mini-putt course.

For the big swingers there's a golf driving range.

The motto of Country Video is "if you are not satisfied, tell us, if you are, tell a friend."

Country Video and Games plans to open a country Christmas and crafts store complete with Christmas gifts and crafts. The owners also plan to operate a winter skating rink this year.

The new Christmas crafts store should be open by Oct. 5.

Willow Lane natural food stores have two locations for better health

For the shopper interested in the latest in nutritional foods and products, Willow Lane Natural Foods is dedicated to supplying these as well as educating their customers in what is up and coming on the health food scene.

Willow Lane has two locations in Halton Hills. One is located at 15 Willow St. S. in Acton and the other is at 360 Guelph St., Unit 43 in Georgetown.

Ann Dohms is the co-manager of the Acton store while Marj Vince and Dale Thornton look after the Georgetown business.

The store offers a lot in the way of holistic health care. Some of the products have little to do with food.

In addition to natural and organic food, they carry skin and hair care products, books concerning health, homeopathic and herbal remedies, nutritional information such as Alive Magazine and special diet items.

Willow Lane also carries a selection of Birkenstock shoes for proper foot care.

Ms. Thornton gets to see a lot in the way of what is up and coming

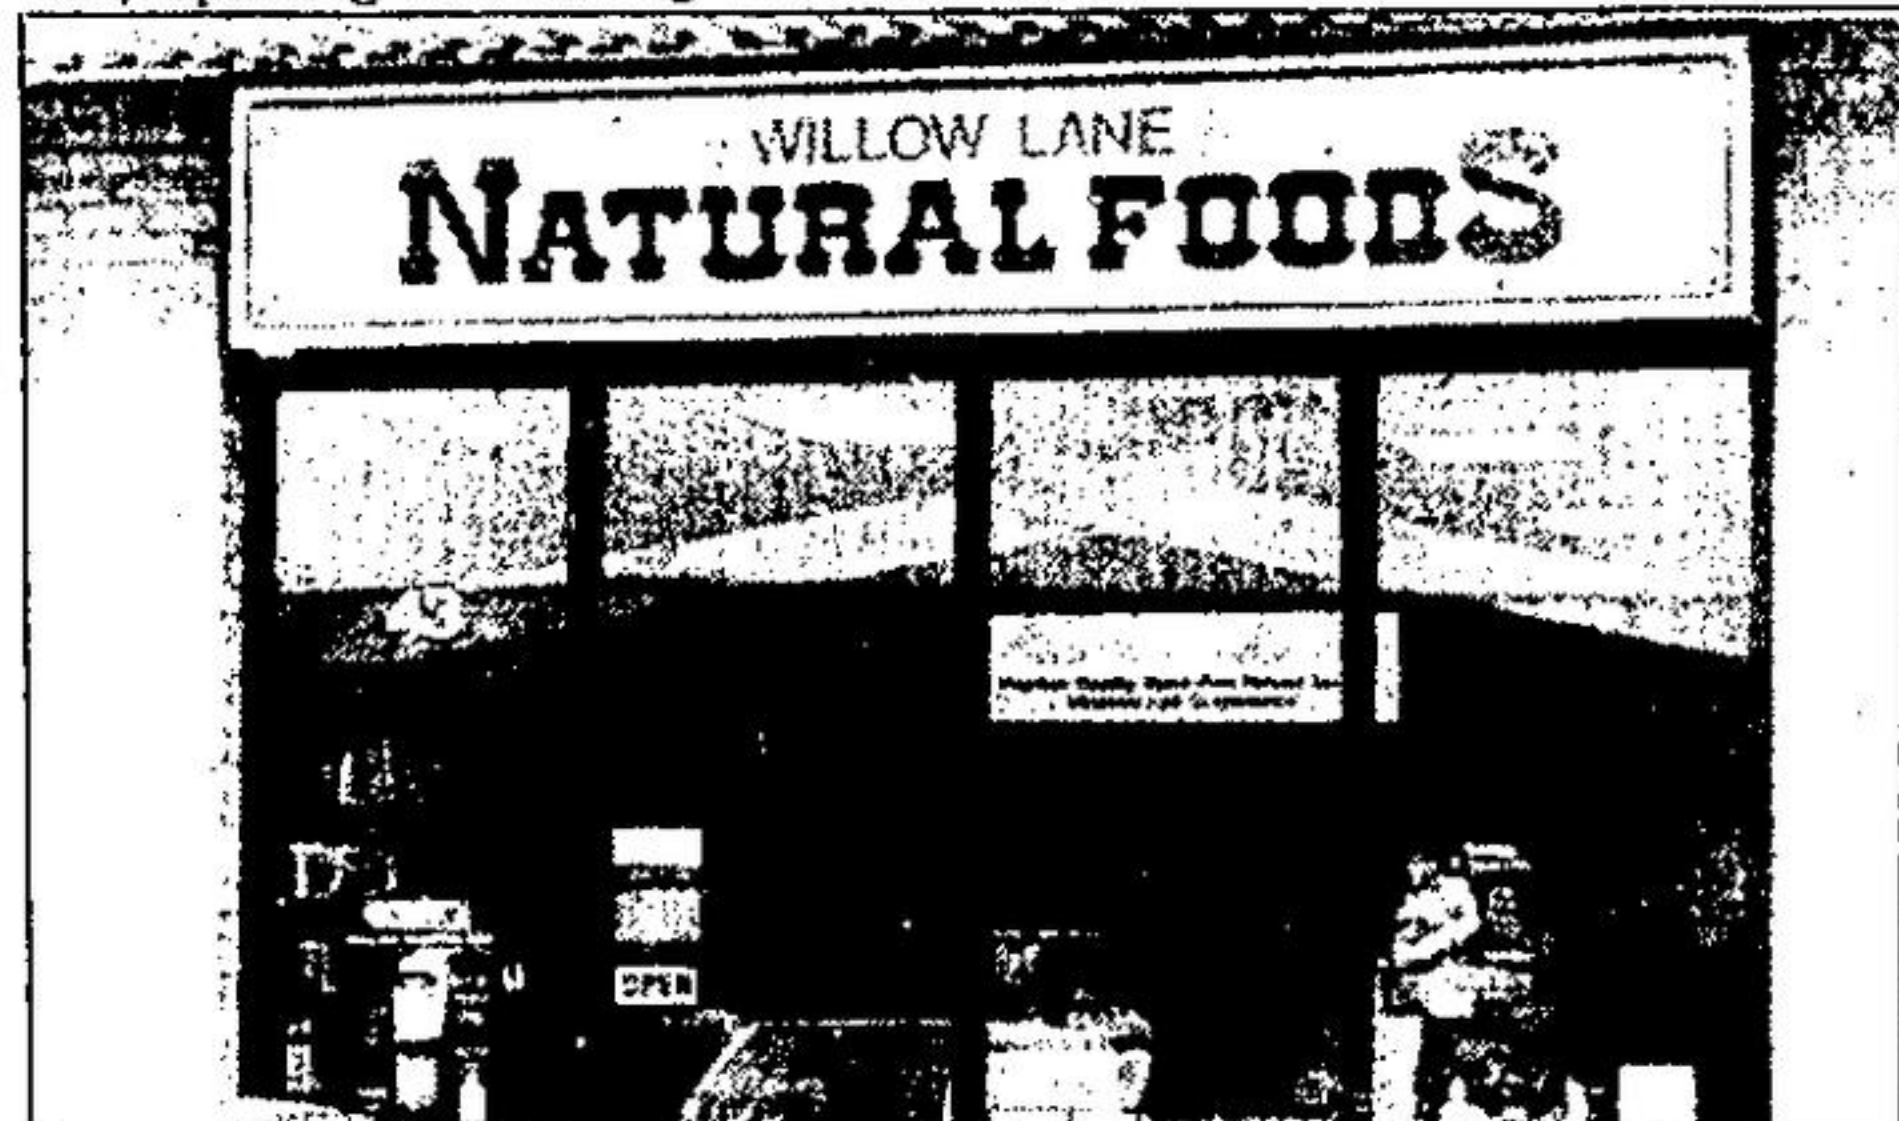

in the way of new health products. Some of the new specialty items are dairy and gluten-free foods for those who need or want these in their diet.

Education in health nutrition is an important issue these days and Willow Lane wants to be up to date in the latest aids to their customers' quest for health. The staff is always ready with information, updating and adding to what

is already available.

Health is not only a business for Ms. Thornton, it is also a hobby. She is an avid cross-country skier, camper, jogger, who also enjoys painting. Her goal is to understand herself and others better.

She is interested in meeting more people to impress on them the importance of taking care of their health and their environment.
