

Fishback Studio set for expansion

James Fishback of J.H. Fishback Photography is planning to build a larger studio to provide customers with a new style of wedding pictures and to increase its service of business product photography.

The new studio is just one more way Mr. Fishback is trying to better serve his customers.

J.H. Fishback is located at 7 Hillside Dr. in Georgetown. The

studio provides individual and family portraits, passport pictures, mounting and framing, and photography of business personnel and products. Mr. Fishback will do this work either in the studio or at the business location.

The family business is run by Mr. Fishback, his wife Carolyn, who acts as receptionist and secretary, his daughter Julie who answers the phone, and daughter

Rachel, who assembles portraits and wedding albums. Mr. Fishback's son David is the general handy man.

Since establishing the business in 1970 Mr. Fishback has had the opportunity to capture changes in fashion, and people as they grow up.

Just last week Mr. Fishback took a family photograph and a graduation portrait of one of the sons. Eighteen years ago he photographed the same boy in knee shorts.

The Fishbacks came to Georgetown from Toronto in 1970 to establish a business in a small town atmosphere.

Over the years the Fishbacks have made many friends and business associates. The family is grateful to their clients and wants them to know the business will be there to meet their future photography needs.

Besides running the family business the Fishbacks are actively involved in the Maple Avenue Baptist Church. Mr. Fishback works with the church's Christian Service Brigade, a boy's club, while his wife works with the Pioneer Girls Club and in the nursery.

RV vehicles abound at Halton Trailer Sales

A year ago Jake and Linda Marissen of Georgetown decided 'it was now or never' time to run their own business, so they took over Halton Trailer Sales and Rentals at the corner of Highway 7 and Trafalgar Road. It is a family business, with Linda doing sales, rentals, and bookkeeping, while Jake takes care of sales, rentals, and maintenance. Their three daughters help when they are not in school.

Halton Trailer Sales and Rentals sells, rents, and repairs trailers, as

well as selling accessories such as awnings, cabs for trucks, liners, and all parts required for trailers.

They will move large trailers from one park to another. They also sell and install Ruse, Drawtite, and Easy Lift hitches and towing equipment.

This year the Marissens have added the Starcraft line to the Gypsy and Taylor Coach lines already sold. Starcraft has become a very popular product and they are pleased.
