Drop-in for disabled adults

From the Town of Halton Hills Recreation and Parks Department
 On June 17, 1988, in response to a survey of disabled adults, a committee was formed called the "Recreation Committee for Special Needs - North Halton" to design a drop-in program for disabled adults.

The purpose is to provide disabled adults with facilities where they can pursue their recreational interests, increase social networks, learn new skills and find opportunities that will contribute to their total sense of well being. The program now operates every Wednesday at the Acton Legion and each week we try to offer various leisure and social opportunities, including both new options and repeats of the old favorites. We have attempted to promote participation in some of the following activities:

Cards, trips, table games,

movies, bingo, kite flying, gardening, discussions, ping-pong, sports activities, arts and crafts, special events, refreshments, dancing/singing, fitness, leather work, guest speakers and much, much more.

Since our program is drop-in by nature participants are free to move from station to station or just sit back and socialize.

We have found our participants have some wonderfully creative skills, particularly in the arts and crafts. These skills will become very apparent at our first ever Special Needs Christmas Bazaar and Bake Sale on Saturday, Oct. 21 at the Acton Arena from 12 to 4 p.m. You will be delightfully amazed at the talents of our members and your support of our program will be greatly appreciated.

If you would like to donate baked or craft goods to our bazaar or want more information on our program please give Shirley a call at 875-1531.

On Friday, Sept. 29, 2nd Georgetown Beavers gathered together to shine apples. Shown here are (first row, left to right) Bradley Holmes, Gordie Rogers, Kevin Dubrevil, Ryan White and Ryan Murray. Second row, Colin Edington, John Paul Zoni, Cameron Davies, Terry Dubrevil. Third row, Greg Tales, Matthew Wellman, Cameron Sissett and Christopher Kirk. Back row, helper Brian Rogers, leaders Lynn Pegg, Laverne Brown and Dave Dubrevil. Missing from photo Evan Golding.

We need your support. Cancer can be beaten.

\$1.5 million to upgrade Glen Eden

Glen Eden Ski Area in Milton, is spending \$1.5 million on new facilities and equipment for the 1989-90 ski season. These expenditures are part of Glen Eden's development plans that commenced in 1987 with the installation of a new triple chairlift and ski run.

This next major phase of development involves the installation of a new computerized snowmaking system and a new ski run. A new Bombardier BR400plus grooming vehicle is also being purchased for the upcoming season.

These additions to Glen Eden's facilities will provide more snow, more hill space, and better groomed ski slopes than ever before!

The new snowmaking system which was designed and engineered by Delta Engineering

of Ottawa, includes a new building to house the main physical plant, two new 3200 CFM high efficiency rotary screw air compressors, two new 600 GPM vertical turbine water pumps, a computerized monitoring system, an on-hill weather station and pipeline extension.

This snowmaking system will greatly expand on our previous snowmaking capabilities allowing earlier opening for skiing in December and will help guarantee good snow coverage for the Christmas Break and the rest of the ski season.

The new "Lover's Lane" ski run will open up skiing under the existing Twister chairlift. Both night lighting and snowmaking are being installed on this intermediate run to permit good day and night skiing all season

long. The new Bombardier BR400plus grooming vehicle is a state of the art version of our previous groomer which will allow us to enhance our reputation for well groomed slopes.

Glen Eden Ski Area is owned and operated by the Halton Region Conservation Authority. The new equipment and facilities are being purchased using monies drawn from the reserve funds developed through the successful operation of the Ski Area.

Glen Eden is committed to providing a good skiing experience for the public and improvements for the 1989-90 season are proof of that commitment. Construction is well under way at the Skmi Area and staff anticipate being ready to start making snow by the first week of December.
