In the lap of luxury

Indoor football takes away from the game

"Your ticket please, sir," the young lady requested with a nice smile.

Now, whenever someone calls me "sir," I have this habit of looking behind me to see who's really being addressed.

"Me?" I enquired innocently, and the lady giggled and shook her head. "Aw, do I have to give up this ticket? I mean, look at it! It's almost as big as a Christmas card... and the colors! And look at that price! I've never held a ticket stamped 'one hundred bucks' before!"

The lady indicated that I could indeed keep the ticket and she directed me toward my Skybox... That's right... Skybox... as in the SkyDome, Nov. 28... The Grey Cup, my first indoor football game, courtesy of a pharmaceutical company, of course. After all, do I look like someone who could afford this type of entertainment... so close to Christmas... with those three wide-eyed, hopeful kids back home?

In any case, as I shuffled along, I guess that it was the grey that got to me first: grey carpet, grey walls, grey decor...

"Very nice... hmmm, but not what I'm used to. Carpet, in a football stadium, for God's sake," I thought as I straightened my Tiger-Cat cap. "Everything's so perfect, but all this grey..." and, yeah, I found myself thinking back to another time, another great, grey Grey Cup... back to 1962, the famous Fog Bowl in Toronto's C.N.E. Stadium, a game that thrilled our nation over a two-day period: Winnipeg Blue Bombers 28, Hamilton 27... and talk about facing the elements...

I opened the vault-like door to our Skybox. More grey; plush carpet; a long and loaded bar; succulent, tenderloin and curried shrimp simmering over flame; black leather swivel seats and circular glass tables; outstanding stereo system playing Steely Dan; big television monitors on each wall; the whole suite encased in giant glass panels which opened to allow access to theater-style, cushioned seats... to permit mingling with the crowd, you see. Wow...

"Your coat, sir, and perhaps something to drink?" another smiling, young lady asked.

"Huh? Oh... okay. Yeah. Sure. Thanks."

Some of my colleagues were filing in now, laughing at my Cats' cap, and lapping up the lavish surroundings. I found myself staring into my tonic, and ice... and whatever... contemplating cold, bold cups: the Arctic conditions in Calgary in 1975; Edmonton 9, Montreal 8, a game that featured that demented McMahon Stadium

streaker; Montreal's sweet revenge on the icy Olympic Stadium field in 1977, Alouettes 41, Eskimos 6.

The AIs combatted the slick conditions by inserting tricky staples into their soles... facing the elements, we called it... the elements of the great Outdoors.

"Another drink, sir? Perhaps more tenderloin?" but my brain

Downhill skiing lessons offered

For the 12th season in a row, the Halton Hills Recreation and Parks Department will be offering Downhill Skiing lessons with the Glen Eden Ski Area. Each year Glen Eden tries to upgrade their facilities and snow making abilities. Last year when most of southern Ontario had virtually little or no snow, Glen Eden was able to operate right through to the end of March.

Glen Eden Ski Area in Milton, is spending \$1.5 million on new facilities and equipment for the 1989-90 ski season. These expenditures are part of Glen Eden's development plans that commenced in 1987 with the installation of a new triple chairlift and ski run.

This next major phase of development involves the installation of a new computerized snowmaking system and a new ski run. A new Bombardier BR400 plus grooming vehicle is also being purchased for the upcoming season.

These additions to Glen Eden's facilities will provide more snow, more hill space, and better groomed ski slopes than ever before.

The new snowmaking system

and belt-line were saying that I had reached my quota.

"Coffee would be very nice, please. And listen... You ladies are great. The service was fantastic! Heck, I'm not used to this. I'm a beer and hot dog and snow and sleet man myself. This is really something else!"

The lady smiles... and then we heard it... that sound... coming from below... a bunch of Western Canadian voices in unison:

"Open-up-the-(censored)-roof!!!"

Their voices grew louder, and more boisterous.

"Let's play some real football! Let it snow!!!"

"Open-up-the-(censored)-roof!!!"

I looked at our hostess and smil-

ed. "Don't pay any attention to them," I said. "They're just a bunch of crazy wheat farmers... and sport fishermen..."

The young lady turned to get my coffee.

And then grinning mischievously, I muttered, to no one in particular, "Yeah, c'mon... Open-up-the-(censored)-roof!!!"

SHORELINES

If you have a fishing fan on your Christmas list, it's an easy assignment to satisfy.

Remember that you can never get too many of those favorite lures; doubles or even triples are often welcomed... not like books or pictures... but more like socks... see how easy we are to please?

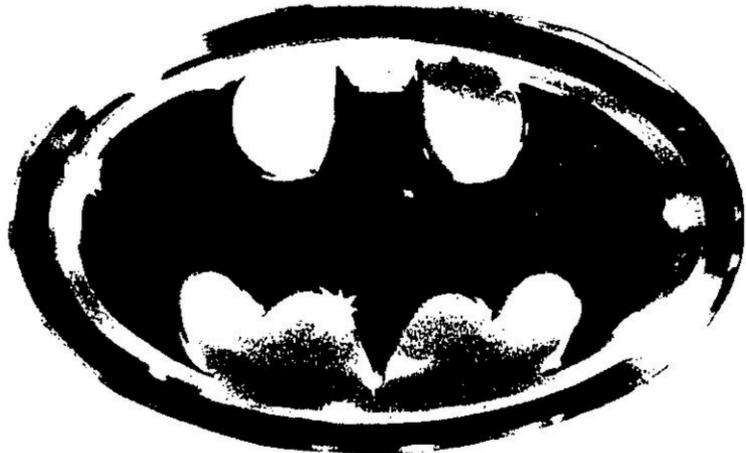

Have a happy and safe holiday!

Glen Eden Ski Area is owned and operated by the Halton Region Conservation Authority. The new equipment and facilities are being purchased using monies drawn from the reserve funds developed through the successful operation of the ski area.

Glen Eden is committed to providing a good skiing experience for the public and improvements for the 1989-90 season are proof of that commitment. Construction is well under way at the ski area and staff anticipate being ready to start making snow by the first week of December.

The ski lesson program being offered by our Halton Hills Recreation and Parks Department commences Saturday, Jan. 13 and runs for eight weeks. Bus pick up locations include the Gordon Alcott Arena and McKenzie Smith Middle School. Classes are one hour in length and are conducted by well trained and qualified instructors. The time outside of the actual class is spent in free skiing. For more information please call 873-2600 ext. 268.
