FORD

urs

Our newest addition --
FORD 655C BACKHOE

Features:

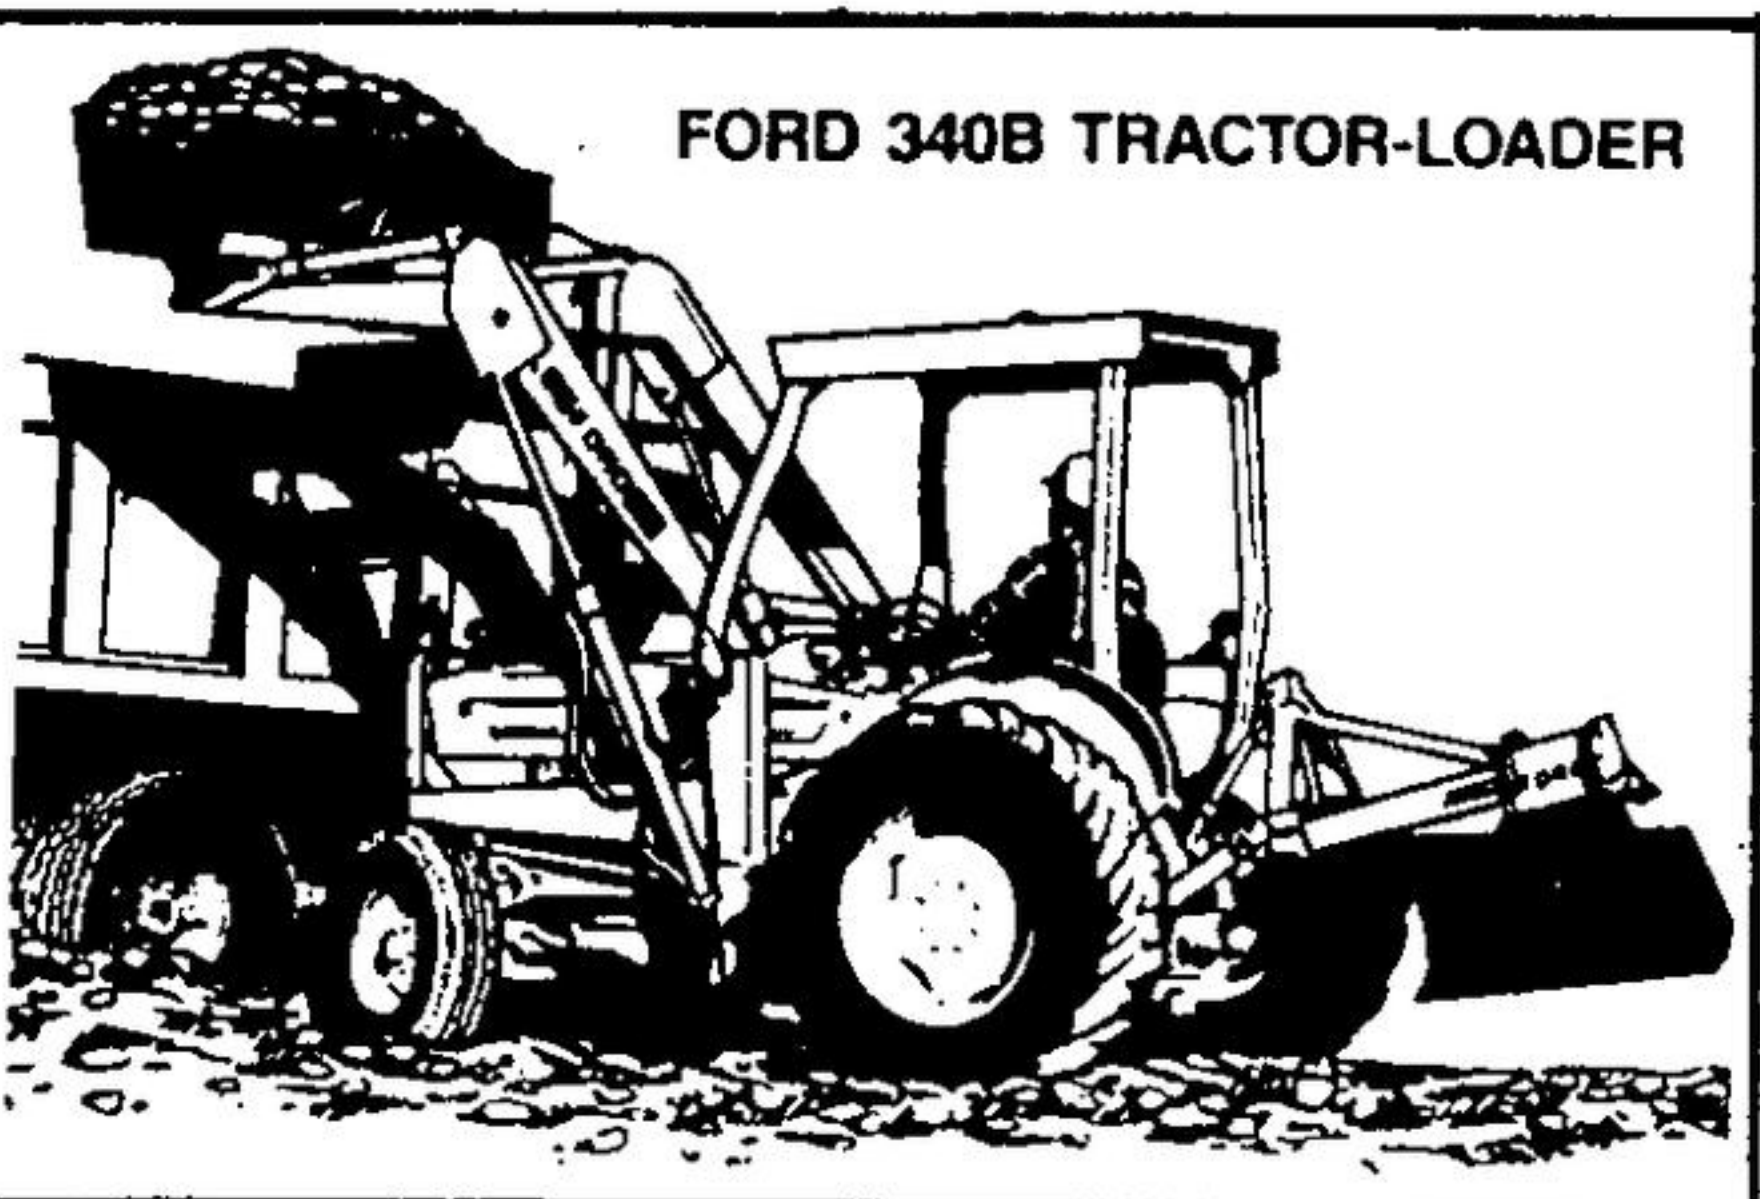

- reach
- strength
- operator visibility
- greater control speed

The L-553.
Unmatched
dump reach.

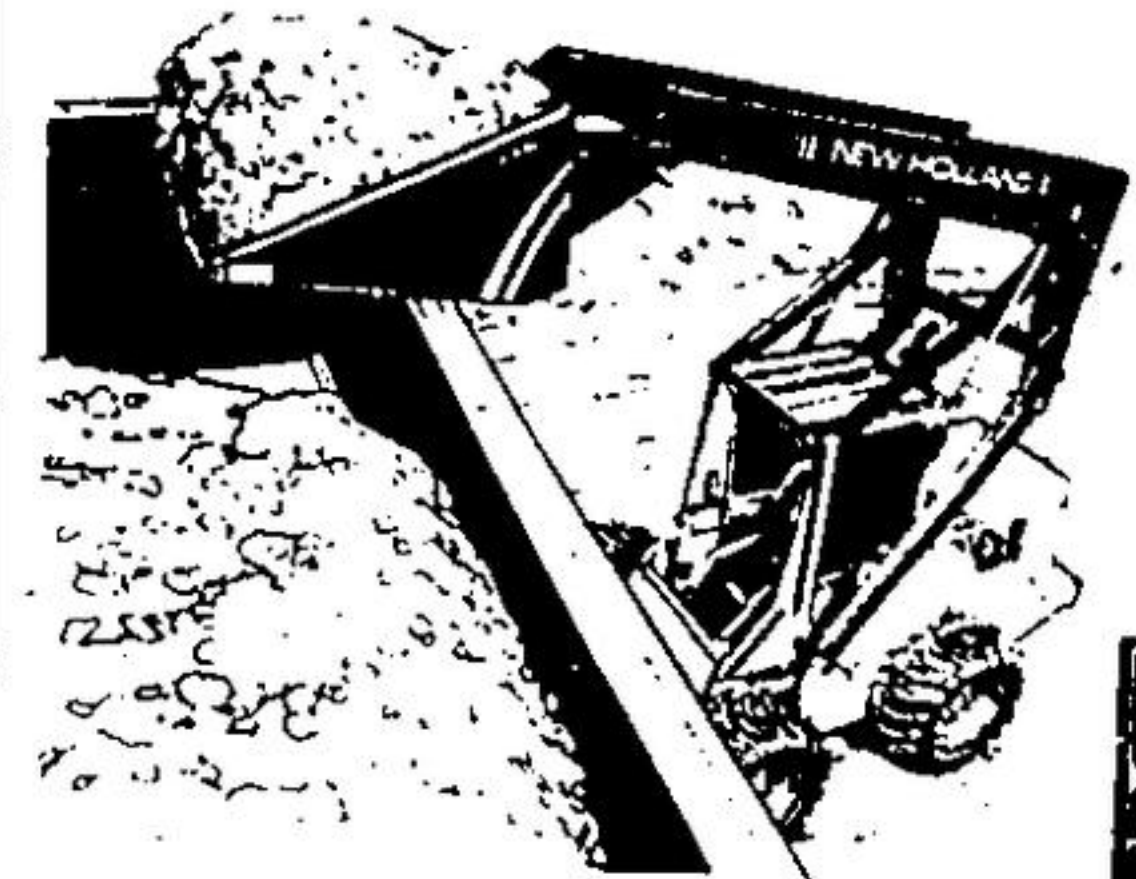

Forward dump reach with the Model L-553 loader from New Holland. That's because the front linkage lifts the payload forward as it dumps. The rear linkage keeps the bucket level, for easy unloading. The result — faster dumping and more work per hour. The L-553 has a 42-inch low center of gravity for outstanding stability. Call today and take the Model L-553 on a test drive.

WE'RE SURE YOU'VE SEEN SO MANY OTHERS ON THE JOB
