

Standard Products (Canada) Limited

NATIONAL RECOGNITION FOR QUALITY

Standard Products (Georgetown Division) supplies belt seating strips and glass runs for various Ford Products lines.

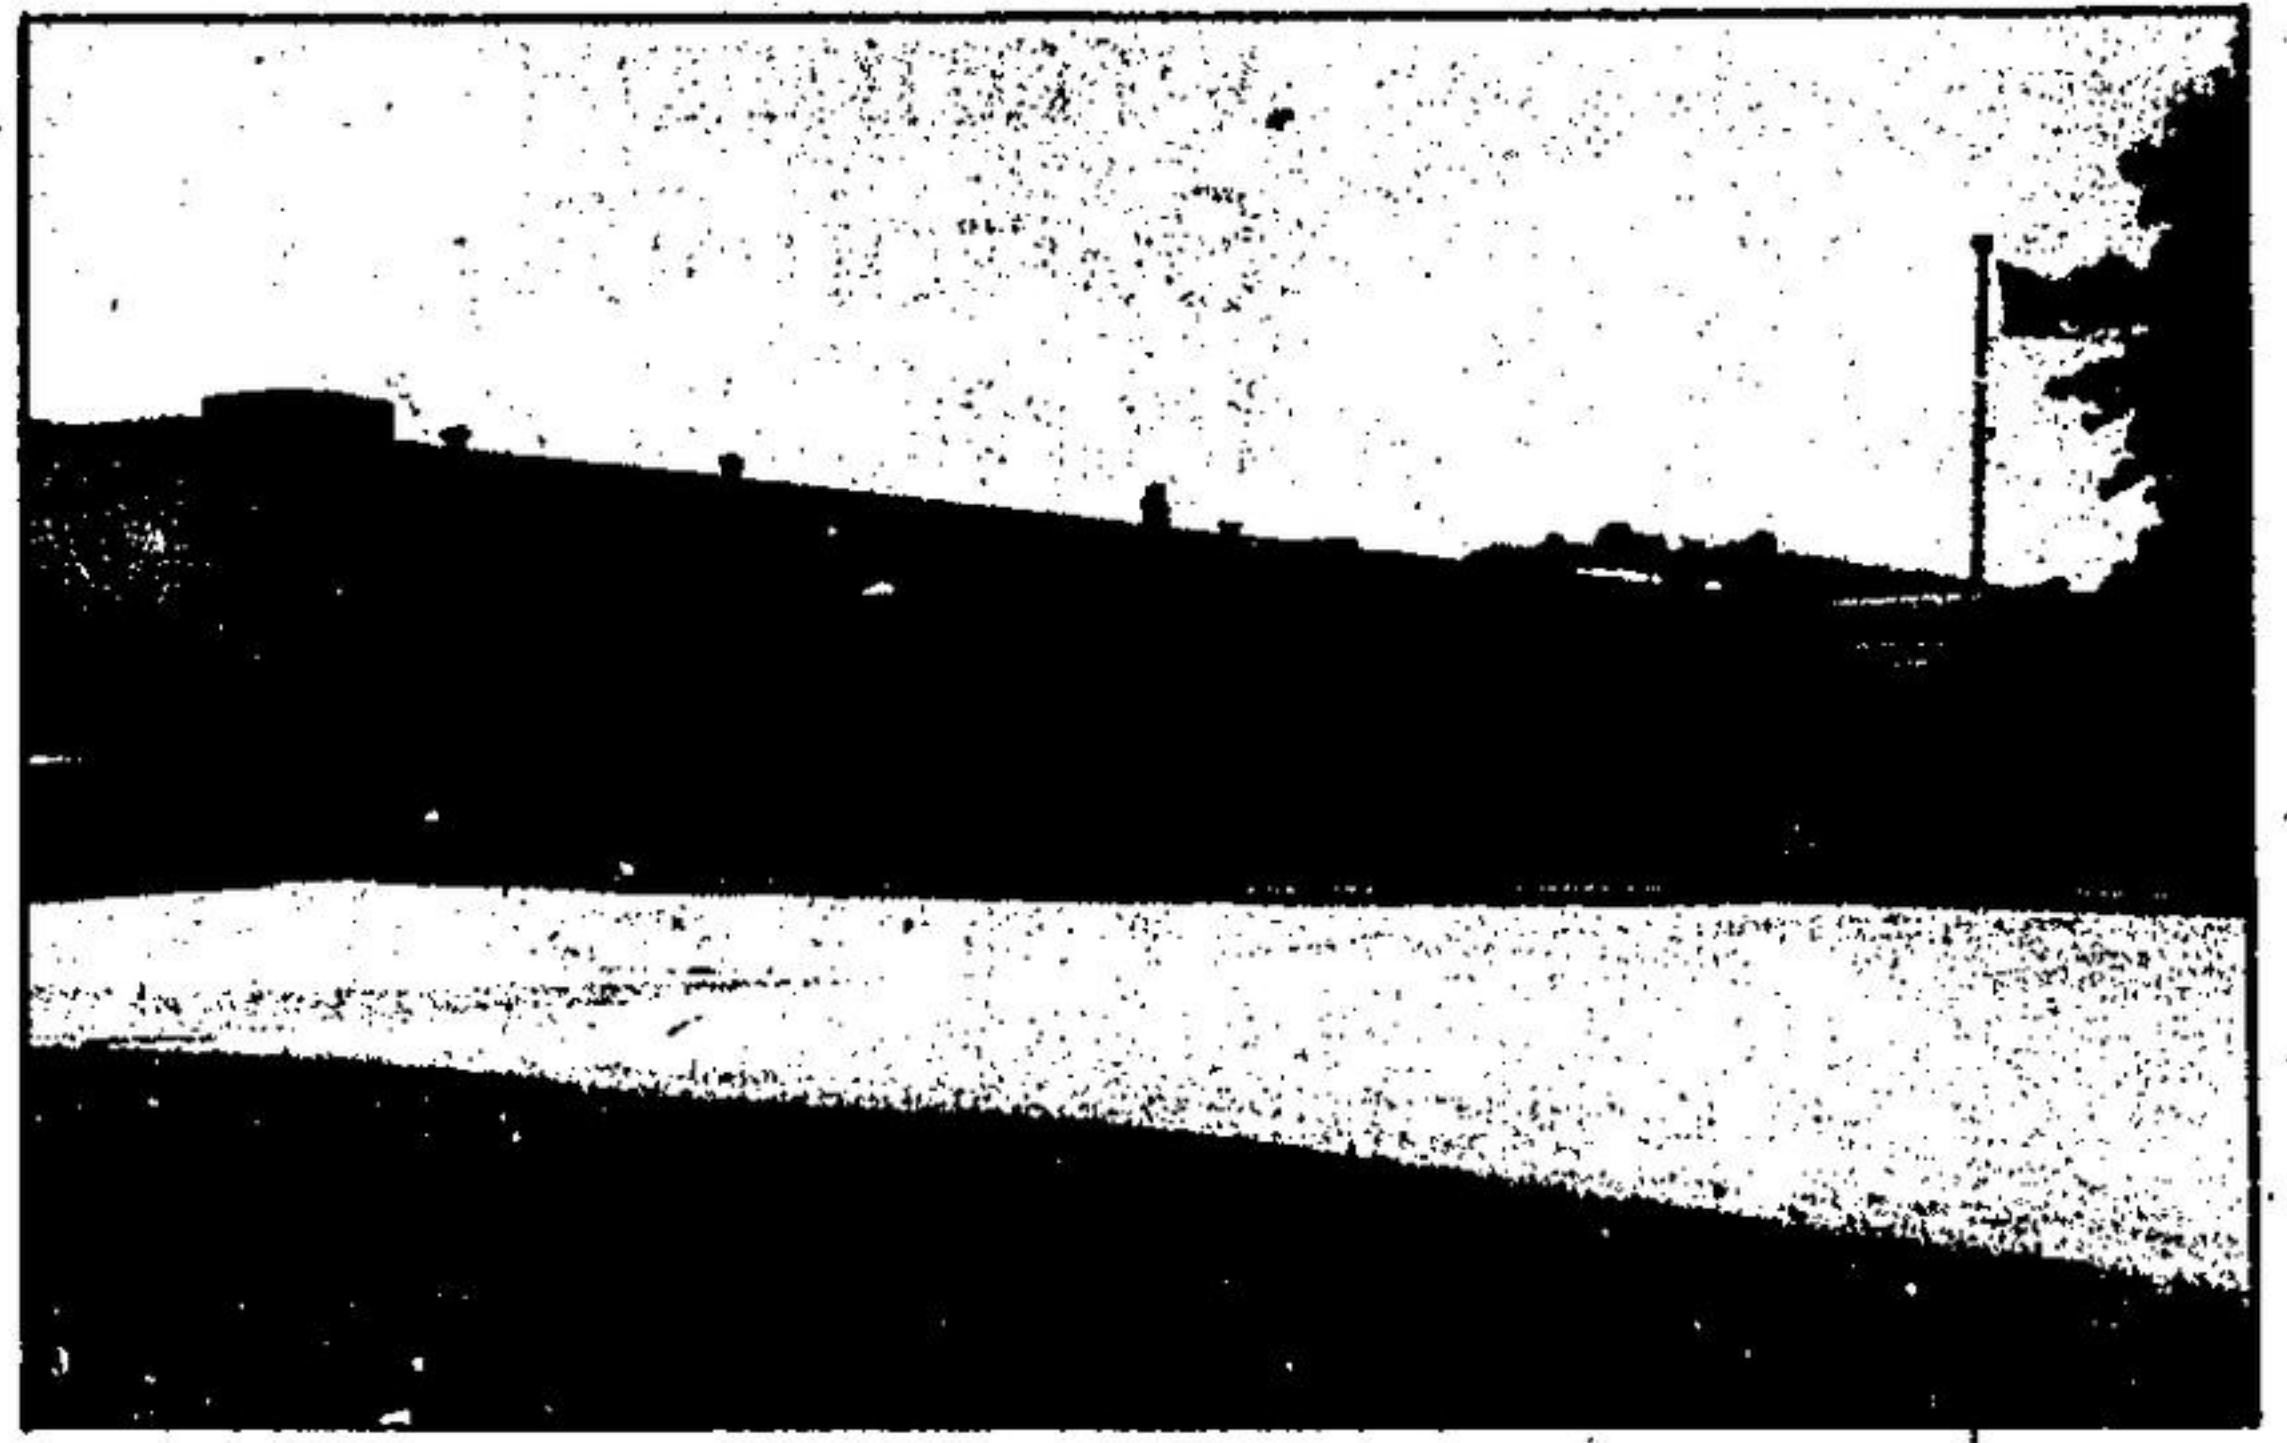

Ford credits QI suppliers with helping produce the highest quality cars and trucks designed and

built in North America for the ninth year running. The prestigious QI Award, which has been earned by more than half of all Ford suppliers, goes to individual manufacturing locations that have implemented an effective quality assuran-

ce program and received an excellent quality rating. These plants use statistical methods to build quality in, rather than catch errors at the end of the manufacturing line.

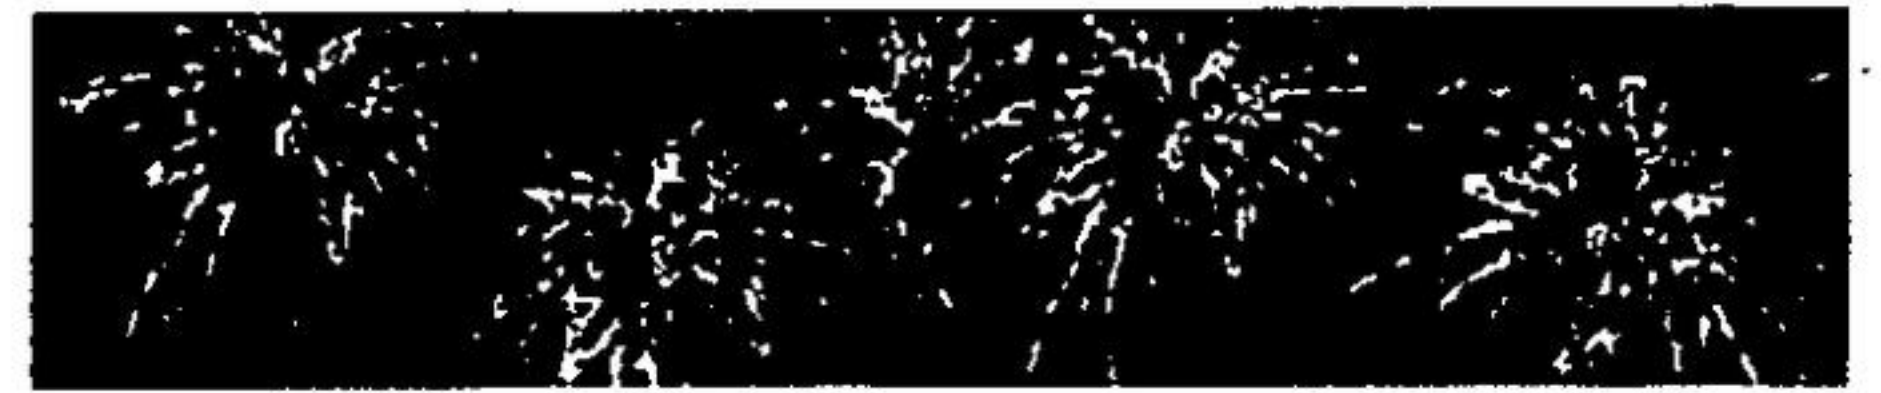

Employees holding the flag are (from left) Pat Walker, Frank Nunes Vas, Paula Fendley, Brian Campbell (plant superintendent), Lorraine Osbourne, Bill Somerville and Anthony Ravenda.

Standard Product's (Canada) Ltd. Georgetown Division plant located at 346 Guelph Street, Georgetown

At Standard Product's Limited our employees make the difference. Dedication and excellence shines through in every one of our staff
