Attractive board and batten finish, with brick detailing adorn this three bedroom, 1367 square foot design. The foyer spills to a vaulted living room with corner positioned fireplace, bay window and adjoining dining room. A planter ledge over the kitchen provides a unique and decorative touch. Abundant counters and ample space for a breakfast table are a few of the features of the kitchen.

Stepping down from the foyer is 442 square feet of unfinished space for future development. The suggested layout includes a family room with sliding glass access to the rear patio and wood stove and laundry room with connecting powder room. The basement further expands future living space.

The second level has a skylit hallway to the bedrooms. The master bedroom boasts a roomy wall closet and three-piece ensuite with soaking tub. The two additional bedrooms share a main bathroom.
