Distinctive windows, decorative column and varying rooflines adorn this three bedroom, 2173 square foot design. The sunken foyer boasts a vaulted ceiling, dramatic railed staircase, and planter ledge. A full multipaned window wall accentuates the high ceiling in the living room and further enhancing the sense of spaciousness throughout this area. A pair of columns, with a planter shelf over, provides visual separation of the living and dining rooms. A U-shaped kitchen, with walk-in pantry and abundant counter space, is open to the breakfast room and family room beyond. Double doors open to a secluded den - ideal for an in-home office or study. A three piece power room with shower and laundry room complete the first level.
