PLAN NO. 89-1287

SPLIT LEVEL DESIGN OFFERS SPACE FOR FUTURE EXPANSION

lower level first level 1299 sq. ft.

Semi-circular transom window, decorative columns and prominent bay window adorn this three bedroom, 1287 square foot design. The living room, resting in a windowed bay, is separated from the cathedral entry by a railing. This gives the living and dining room the impression of being much larger and spacious. The adjoining dining room, with built-in buffet nook, has a sliding glass door to the large rear deck. This is ideal for outdoor entertaining and warm weather barbecues. The efficient kitchen with abundant counter and shelf space is open to a sunny breakfast bay.

The master bedroom features a roomy wall closet and three-piece ensuite with shower. The two additional bedrooms share a main bath with soaking tub.

The lower level provides 514 square feet for future expansion. The suggested layout includes a family room with sliding glass access to a rear deck, laundry facilities and bathroom.

Send for Canada's largest plan book with over 330 designs and 280 pages. Imagine one plan book that includes stately brick manors to dramatic wood and glass contemporaries, only \$12.95 including shipping. To build Plan No. 89-1287, order an 8 set blueprint package for \$335.00, or 5 sets for \$285.00, plus \$14.00 shipping.
