Gabled roof with wood shingles and brick facing provide charm for this three-bedroom bungalow. The design is ideal for a lot with the view to the rear. A weather protected entrance opens onto the living area. The central brick fireplace creates a warm focal point to the picture window wall. Columns and a decorative plant ledge suggest privacy while extending sight lines. The island kitchen, with ample cabinet space, offers an eating bar for casual meals. The breakfast has table space for larger family gatherings. Sliding glass door, with garden view, offers easy access to a large patio.

The view is appreciated in the master bedroom through a circle-top window and glass patio doors. The U-shaped walk-in closet and luxurious ensuite, with double vanity and whirlpool tub, completes the master suite. Full and half baths located close to two additional bedrooms allow for flexibility in the rooms' uses. Laundry closet is conveniently located to ease household chores. The full basement offers future expansion to the 1829 square foot home.
