## How To Kill A Business In Ten Easy Steps

1. Don't advertise  
Just pretend everybody knows  
what you have to offer
2. Don't advertise  
Tell yourself you just don't have  
time to spend thinking about  
promoting your business
3. Don't advertise  
Just assume everybody knows  
what you sell
4. Don't advertise  
Convince yourself that you've  
been in business so long  
customers will automatically  
come to you
5. Don't advertise  
Forget that there are new  
potential customers who would  
do business with you if they  
were urged to do so
6. Don't advertise  
Forget that you have competition  
trying to attract your customers  
away from you
7. Don't advertise  
Tell yourself it costs too much  
to advertise and that you don't  
get enough out of it
8. Don't advertise  
Overlook the fact that advertising  
is an investment in selling - not  
an expense
9. Don't advertise  
Be sure not to provide an  
adequate advertising budget  
for business
10. Don't advertise  
Forget that you have to keep  
renewing your established  
customers that you appreciate  
their business

If you want your business to grow and prosper contact our  
display advertising department for professional advice.
