A trio of skylights over the foyer illuminates the entry and welcomes guests to this 1,592 square foot home. Flowing from the foyer is a sunken living room with carousel bay window, fireplace and adjoining dining room - ideal for entertaining. The informal area of the home centres around a U-shaped kitchen, breakfast bay and family room. A large feature wall in the family room is created by the fireplace and oversized hearth.

The three bedrooms are positioned away from the noisy traffic areas. The master bedroom boasts a walk-in closet and three-piece ensuite with shower. The two additional bedrooms share a skylit main bathroom with soaking tub. The third bedroom can easily double as a guest room or den.

This plan includes a basement and crawl space foundation. For the basement option the staircase is located off the main floor laundry facilities and double car garage access.

Send for Canada's largest plan book with over 330 home plans.
