

PC's represent an alternative says Whiting

A number of Halton North voters are saying they are disillusioned and somewhat disgruntled with politicians at all levels of government, says Halton North Progressive Conservative (PC) candidate Dave Whiting, in a press release.

Mr. Whiting, now entering his second week of the Provincial election campaign, says that door-to-door canvassing across the riding during the first week has elicited largely negative reaction to the notion of a September 6 election in Ontario. Voters have also told him they are concerned about high taxes, rising government debt, health care, the environment and political leadership that can't be trusted.

Mr. Whiting has told local residents he understands their frustrations provincially and federally and argues that he and his party now represent - more than ever - an alternative to the Liberal Party of Ontario, the Ontario New Democratic Party and the Family Coalition Party.

"The Progressive Conservative Party of Ontario is the only truly democratic party in Ontario - and, perhaps, in Canada," explains Mr. Whiting. "We now have the largest membership of any party in Ontario, we have a new leader who is steering the party back to its popular mainstream small 'c' conservative roots and we have a province-wide agenda developed by rank-and-file Tories like me."

Mr. Whiting says the ruling Liberals have "lost what touch they ever had with the public" through excessive taxation

policies, poor management of Ontario's health care system and no leadership in the areas of Sunday shopping, official bilingualism and environmental protection.

"Many Halton North residents feel that no-one has been listening to them at Queen's Park and they're probably right," he explains. "Halton North Liberal Member of Provincial Parliament (MPP) Walt Elliot's voting record on significant issues affecting this riding have consistently favoured the government's position over that of residents."

And, Mr. Whiting doubts an NDP or Family Coalition MPP would provide a significant alternative to Mr. Elliot.

"The NDP record of fiscal management, respect for free enterprise and acceptance of the basic rights and freedoms of the individual in provinces where they have held power, such as British Columbia, Saskatchewan and Manitoba, should be of concern to all voters in Ontario," he says. "And, with the fall of socialism around the world, particularly in Eastern Europe, it is clear that the NDP's socialist, anti-business way of thinking is out of sync with the realities of the 1990s."

"As for the Family Coalition Party it need only look at the success of one-issue political organizations like the federal Liberal leadership candidacy of Tom Wappel to see how it will be regarded by the growing number of real people with real problems in this province," Mr. Whiting adds.

Thorough Cooking Prevents Food Poisoning
A major cause of food poisoning is insufficient cooking time. Cook meat thoroughly to kill any bacteria present. Red meat is done when it is brown or gray inside. Poultry juices should run clear.
