TRI-LEVEL HOME DESIGNED
FOR FAMILY RECREATION.

This imposing design is perfectly suited for the narrow to medium frontage residential building lot and provides in excess of 1,200 square feet of finished floor area and an additional 936 square feet for future development in the unfinished lower level. The suggested lower level layout includes a family room, laundry room with two-piece powder room and an in-law or nanny suite.

The contemporary exterior finished in horizontal siding and brick veneer provides a durable and impressive finish. A deeply weather-protected front entry opens to a long rectangular living and dining room with fireplace and multipaned boxed window. An efficient L-shaped kitchen with abundant work space has ample space for a kitchen table.

All three bedrooms are positioned on the upper level. The master bedroom features a full wall closet and two-piece ensuite. The two additional bedrooms share a full bath with

soaking tub.
