

### Final putts

Richard Wiatr, of Oakville, made his last putt of the season at the men's closing day at the North Halton Golf and Country Club Saturday. The City of Toronto employee was one of the last golfers to come in at the end of the day. (Herald photo)

## Midgets bounce and rebound

The Canada Brick Halton Hurricanes AAA Midgets maintained their '500' league record in a two-game weekend schedule. The locals lost a 4-3 decision on Friday night in Hamilton, but rebounded to double Burlington 4-2 at Alcott Arena on Saturday.

A number of Hurricane regulars were side-lined for the Hamilton game in the aftermath of an overly physical outing in Barrie a week earlier. The Hurricane lineup was supplemented by some very able minors including Mike McPhail, Tom Baier, Shawnee Tooley and Jake Mashinter.

Hamilton wasted little time in establishing a solid lead as they pumped in 3 goals in the first eight minutes of play. The Hurricanes gradually regained their composure and at the mid-point of the second period cut the deficit to two goals on a power-play goal by Brad Amato with Mike Cox and Joe Piazza assisting.

Halton's recovery continued early in the third frame when McPhail added another power-play marker on a set-up by defencemen Amato and Tooley. With 6:06 remaining, Hamilton capitalized on a two on one breakaway to make it 4-2.

Goalie Peter Downs was pulled with just over a minute remaining to give Halton a 2-skater ad-

vantage. McPhail added his second of the night from Baier with 56 seconds remaining, but for the Hurricanes, their domination of the play in the late going was too little too late.

The Halton squad was undaunted by the narrow defeat of the previous night when they took to the ice in Georgetown on Saturday as hosts to Burlington.

The Hurricanes stunned the visitors from the opening face-off as Trevor Elinsky and Rob Crowe moved the puck quickly into the Burlington zone to set up linemate Todd Mulley for Halton's first goal with just 11 seconds elapsed.

Halton struck again early in the middle frame when Amato cleared to Elinsky who in turn fed

Sean Guistini on the left flank. Guistini drifted a low, 30-foot shot to the short side to put the Hurricanes 2-0 ahead.

Burlington answered four minutes later on a breakaway but again, the home team responded when the tenacious Pat Henneberry forced a cough-up in the visitor's zone. Cox relayed the puck from behind to Piazza who slapped home the feed from 8 feet.

The Hurricanes added an insurance marker with five minutes remaining when Guistini deked the Burlington goalie to score his second of the night, with Cox and Dubien assisting. The Canada Brick Hurricanes play next in Brampton on Sunday, October 21.

### SPECIAL OF THE WEEK

— EVERY FRIDAY —  
RIB-STEAK DINNER

FOR ONLY  
**\$6.50**

INCLUDES:  
• SOUP OR SALAD  
• ROAST POTATOES  
• ROLL

## DOVETEC CORN HEATER

Stay warm with corn!

1. HOPPER  
holds up to seventy pounds of corn.
2. HEAT-RESISTANT FINISH  
in a variety of colors to fit any decor
3. DUAL BLOWERS  
draw room air into a high-efficiency "orbit" of the fire-box and blow clean, heated air into your home through four hot air vents (4)
4. AIR VENTS
5. REMOVABLE ASH PAN  
Simply pull it out — even while the stove is burning — and empty it about once a week
6. FREESTANDING OR FIREPLACE INSERT  
Does not need a chimney. The DOVETEC's unique venting system allows you to vent straight through an exterior wall. Because this venting system uses natural draft for combustion it is listed zero clearance by UL for use in manufactured homes as well as homes and offices.  
If you have a chimney you can use the DOVETEC as a fireplace insert. This makes the DOVETEC one of the most versatile and easiest units to install.
7. AUTOMATIC FEED (not shown)  
The DOVETEC automatically feeds day and night with settings easily adapted for your desired comfort level
8. VISIBLE FLAME  
Unlike wood burning stoves that soot the glass, the DOVETEC generates a visible flame as it burns. You don't have to give up the beauty of a fireplace to have efficiency and economy in home heating
9. GLASS DOOR STANDARD  
With its attractive DOVETEC logo, the glass door allows you to enjoy the beauty of a real fire without sacrificing heating performance
10. WASHABLE AIR FILTERS  
Stainless steel air filters remove dust particles from the air prior to circulating the heated air throughout the home. Easy to remove, wash, and replace. Will not rust and lasts many years
11. EMISSIONS EASILY VENTED OUTDOORS  
through a simple dryer-type vent (not shown) or up the chimney... the choice is yours. Because corn burns clean, you need never worry about creosote build-up again.

## Halton Hills Hydro

Your Hydro Commission  
"Working For You..."

During the past year, your hydro commission, as a member of the Municipal Electric Association (M.E.A.), has been working on your behalf on many vital issues:

### The G.S.T.

Ontarians have long benefitted from "public power at cost." The Goods & Services Tax threatens this. Ontario's municipal electric utilities have persistently lobbied government to exempt electricity from the G.S.T. We feel it is as essential as water, which has been exempted.

### Charge on Ontario Hydro

We opposed the Ontario government's recent introduction of a "debt guarantee fee" on Ontario Hydro's debt. This charge accounts for more than 2 per cent of your electricity bill.

### Demand/Supply

Ontario is on the verge of an electricity supply crisis. If growth in the province continues as it has, the lights will start going out as early as 1994. We are urging government to take measures to ensure that the safe, reliable and environmentally sound supply of power Ontarians have enjoyed continues. At the same time, we are promoting programs to encourage the wise and efficient use of energy.

*The M.E.A. is the voice of Ontario's 316 municipal electric utilities, helping us to represent your interests to government, Ontario Hydro and others.*
