A covered railed porch, dormer windows and fish scale siding accent this charming country plan. The vaulted foyer, with plant ledge over, spills to the trayed ceiling living and dining rooms; sliding glass door beyond opens to a rear covered porch. The gourmet kitchen with twin pantries and built-in desk, is separated from the sunny breakfast room by an angled serving counter. The adjoining vaulted family room, which is open to the kitchen and breakfast area, offers a fireplace, sliding glass door to the rear garden and long planter ledge.

A private staircase, off the family room ascends to an expansive skylit bonus room; the 427 square feet of unfinished space can be used as a nanny suite, game room or media centre. The den or in-home office with bay window, closet wall and nearby three-piece bathroom, can easily double as a guest room or extra bedroom.

The open staircase winds to a railed gallery. Double doors open to a luxurious master bedroom with walk-in closet and ensuite with his and hers vanity, whirlpool spa and shower. The two additional bedrooms share a main bathroom with soaking tub.

A large workshop in the two-car garage has plenty of space for tools, storage and recreation equipment. The finished floor area of this home is 2,059 square feet.
