

HOROSCOPES

MARCH 17-23

ARIES - March 21/April 20

A great deal may be said and promised this week, especially as far as joint finances and undertakings are concerned. However, ask for expert or legal advice now before entering into any major agreements or transactions.

TAURUS - April 21/May 21

This is very much a time when either family health problems restrict your movements or you are somewhat physically under par. So try to lighten your load and don't imagine that you and you alone can resolve current family problems or be everyone's confidant and protector.

GEMINI - May 22/June 21

Not a week to spring surprises or alter plans and arrangements. Simply take extra care when traveling and keep reminding yourself that there is no astrological reason now why you must change your position on either personal or partnership finances. Others will eventually accept your proposals and opinions.

CANCER - June 22/July 22

Allow for delays and disruptions if traveling this week and above all, don't overreact if news received tends to suggest that an important plan or project has to be shelved for a while. Not till later in the month will the full story be revealed.

LEO - July 23/August 23

Follow your instincts and you will be able to make some good financial investments this week. A niggling fear would be eased if you discussed it sensibly with a friend. Choose company carefully as someone close may tend to overshadow your talents. Take care that you don't ignore someone who needs you.

VIRGO - August 24/Sept 22

A change of scene should give you a chance to relax; you should find this welcome because, although you have plodded on, you have been using up a lot of nervous energy recently. Difficulties which have previously been beyond your control should start to recede now.

LIBRA - September 23/Oct 23

Financial obligations cannot be evaded or ignored this week, so fasten your seatbelt and anticipate a bumpy ride. However, Venus, your ruler, makes you aware that no amount of money can compensate for what you are experiencing emo-

tionally. Others must realize that for you there is no turning back now.

SCORPIO - October 24/Nov 22

No doubt you are determined to prove just how self-sufficient and independent you can be. However, it would be a pity to alienate someone who has not only stood by you in the past, but also wishes to further your personal aims and ambitions.

SAGITTARIUS - Nov 23/Dec 21

It is possible that this week will result in some kind of reunion. It's not a bad time to call an old flame or renew correspondence with a friend who's far away. Pay attention to your home and try to brighten it up with some minor improvements.

CAPRICORN - Dec 22/Jan 20

You may find that the beginning of the week proves rather trying, with your efforts at solving a family problem meeting with disapproval, but unless you take the initiative things could get somewhat out of hand. Some kind of change, perhaps relating to some ceremony, may have to be considered soon.

AQUARIUS - January 21/Feb 18

Avoid, if possible, taking sides this week or becoming involved in disputes between friends. Finances appear to be a major bone of contention, but you are not in a position to give much practical assistance or make promises and further commitments.

PISCES - February 19/March 20

Maybe friends are just confused and uncertain rather than deliberately evasive and non-committal, especially about joint financial arrangements. However, you must take a tougher line this week and ensure that at least some attempts are being made to recover what is due to you.

YOUR BIRTHDAY THIS WEEK

The next twelve months:

Luck is with you and you have a very good chance of improving your personal circumstances, status and prospects! The stars highlight the next 12 months as being a time of opportunity in both finance and career. The trials and losses of the past few years have made you a much finer, stronger and wiser individual and therefore you will be able to cope with anything that comes your way during the forthcoming year.

How did you spend March Break?

Peter Labelle, 8, Grade 2, M.Z. Bennett Public School: "I did carvings of horses. I helped my mom wash the dishes and take care of my little brother, and I made little models."

Arlene Jackson, 9, Grade 4, M.Z. Bennett Public School: "We went to New Brunswick and visited my aunt and uncle who live five miles outside of Moncton. We were going to visit the Magnetic Hill but we didn't make it. We visited Crystal Palace and it had lots of rides and a souvenir shop."

Matthew Schiller, 10, Grade 5, M.Z. Bennett Public School: "I was at the YMCA day care centre and we made mice out of walnut shells. I also went to Crawford Lake and went on the woodland trail and the boardwalk around the lake. I also made some Indian bread at home, and visited my grandparents."

What are magic squares?

A magic square is an arrangement of numbers in the shape of a square. The numbers are arranged so that the sum of each horizontal row, each vertical column and each diagonal line are equal.

Long ago, in ancient civilizations, magic squares were believed to possess mystical powers and were worn as symbols of good luck. Magic squares can contain nine boxes, 25 boxes, 49 boxes, 81 boxes and so on.

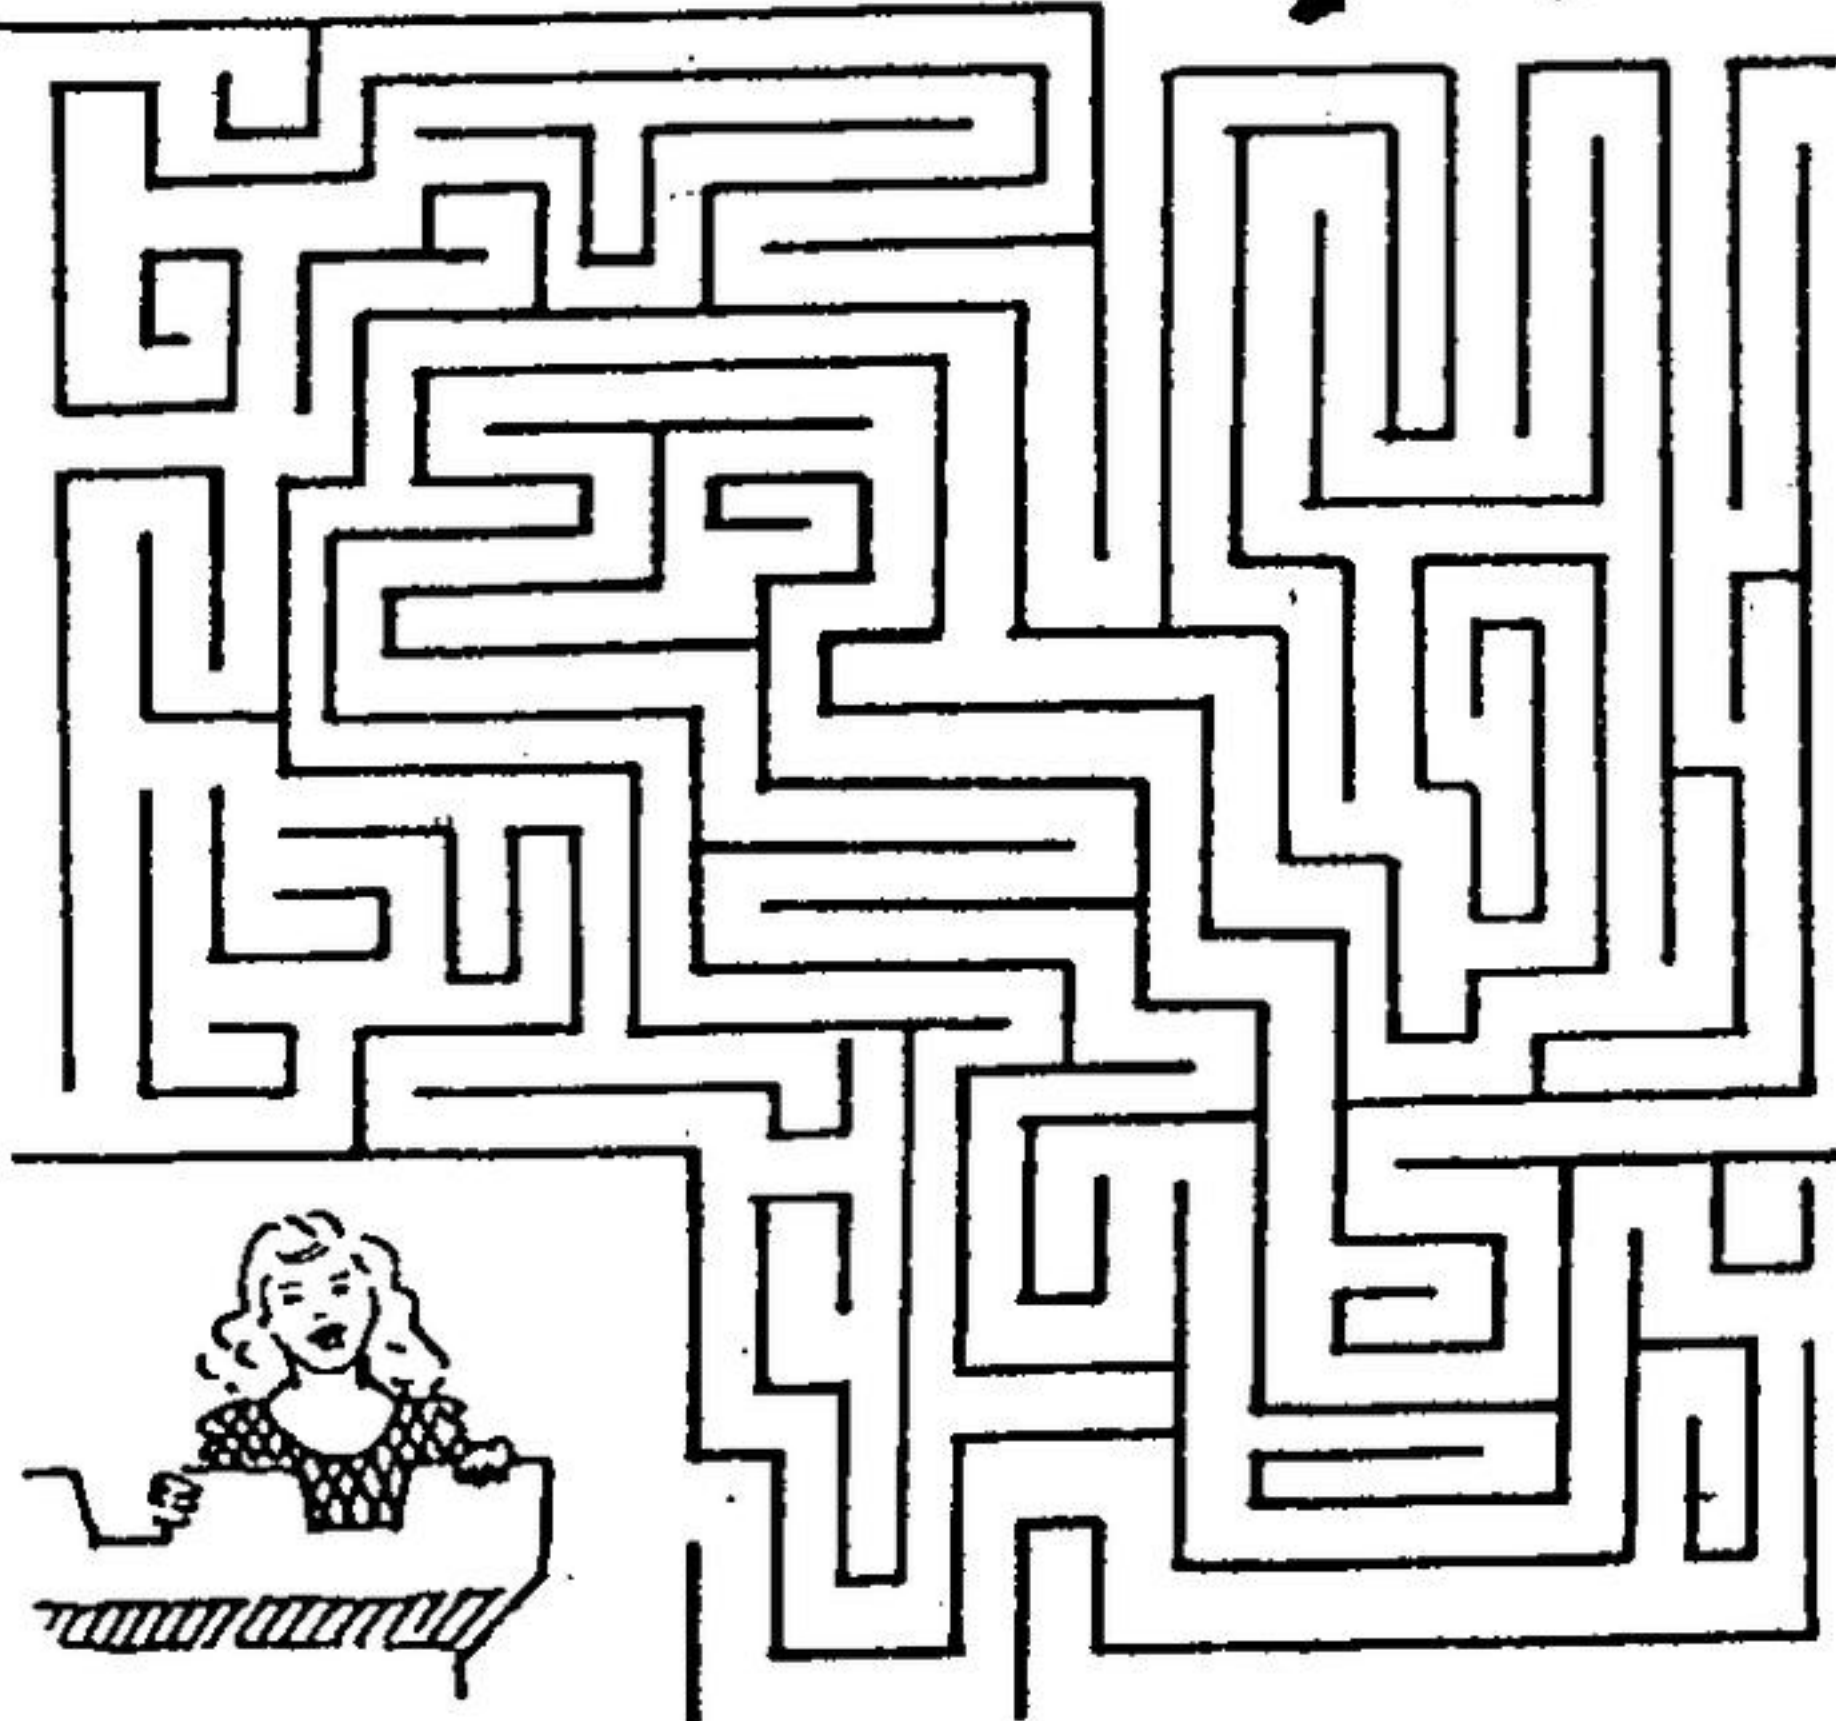

Here are some magic squares. Try to figure out their totals. K3910012
