Sick Chairman's Report

Visited both Harry Allen and Red Roshier this past week. Red was up and around, able to do much for himself considering. He could walk a reasonable distance unassisted, and in fact told me that he expected to be home by the weekend. This proved to be the case, and now that he is home, we trust that his recovery is assured and that he will soon feel much like his old self, and able to join the "Zipper Club".

Harry, although not able to converse with me except by gesturing, seemed to be quite upbeat. I think now that he has moved from Toronto to Credit Valley, he knows that his condition has improved considerably, and is comforted by the knowledge that Jeanette is able to visit him more frequently and with considerably less travelling. He is into a strenuous routine of therapy which must be difficult, but I can assure Harry that we are all pulling for him.

We wish all our shut in members well, keep up your spirits and have a good day.
