

What's Happening?

A directory of Education Focus '91 activities

"LEARNING IS FOR LIFE"

Welcome to Education Focus '91. The weeks from April 22nd-May 3rd are a special time to focus on some of the exciting things happening in public education in Halton.

Our theme this year "Learning is For Life" reflects our belief that the quality education we provide to students will prepare them for the world they'll face after they leave school. We must continue to make sure our students have the skills, knowledge and attitudes they need to master the challenges of the 21st century.

Our theme also highlights the growing number of adults returning to our school system to further their education. We welcome them, and we invite others to take advantage of the exciting opportunities offered by Adult and Continuing Education.

We hope that you will be able to take part in some of the activities listed in this directory. It's easy to see that Halton Board of Education schools are exciting places to learn!

The Halton Board of Education

"Pursuing Excellence in Education Through Commitment and Service"

Bob Williams
Director
