HOME OF THE WEEK

SKYLIT DECK ENCOURAGES OUTDOOR LIVING

Sprawling, four bedroom family home offers two exciting exterior finishes. This design may be finished in wood siding with brick trim or low maintenance stucco. The skylit foyer which is graced by an elegant curved staircase, flows to the sunken livingroom and adjoining diningroom. A plant ledge provides visual separation of the open planned living and dining room and emphasizes the high vaulted ceiling. The cross-hall den, with private three-piece bath, can easily double as a guest room or office.

The focal point of this design are the two spacious covered decks which stretch along the entire width of the home and expand the living space outdoors. Double French doors off the expansive, sunken family room open to a partially covered patio with built-in barbecue. A second deck with twin skylights further extends the outdoor entertaining area. The gourmet kitchen features a centre preparation island, angled sink under corner windows and connecting breakfast room.

Upstairs the skylit master bedroom boasts a cozy fireplace, private sundeck, walk-in closet, and luxurious ensuite with whirlpool spa, chower and twin vanities. The three additional bedrooms share a main bathroom with double vanity.

The finished floor area of this design is 3,424 square feet. Plan offers a choice of foundations, including a full basement or crawl space.
