GINGERBREAD FACADE ENLIVENS FAMILY HOME

Handsome-ornamented exterior, including a covered porch with spindles, distinctive bay window and wood detailing, characterize this three bedroom design. The foyer spills to a living room with bay window and adjoining dining room; optional buffet nook may be built in the dining room. The french doors off the dining room open to the rear patio and enhances outdoor entertaining. The country kitchen with long, angled counter provides abundant counter space and quick service to the sunny breakfast bay. A fireplace warms the family room, which also offers an art niche and french door entry to the rear patio.

The staircase winds to a railed gallery which views the foyer below and offers a sitting area that can be used as a study or computer station. The master bedroom features a partially vaulted sitting bay, walk-in closet and ensuite with whirlpool spa and shower. The two additional bedrooms share a main bath with soaking tub. The finished floor area in this charming home is 1,949 square feet. Plans offer a choice of foundations including a full basement or crawl space.
