The Learning Annex and the HERALD presents....

## The Doors

### Riding On The Storm: The Sixties, & Now with John Densmore

The Doors' career lasted a brief four years, but the Beatles' influence changed our culture. It's been 20 years since the Doors took the stage, but still, they remain one of the most popular rock bands of all time.

John Densmore was a founding member and drummer for The Doors, keeping the beat behind Jim Morrison right from their first performance in the nightclubs of Sunset Strip. He has survived the pressure, the spotlights, and the indulgence of America's most popular psychedelic band, and is here to tell about it.

You'll Get To See John's Private Doors Footage...

Densmore's presentation - part lecture, part performance, part video display - features rare footage of the band. In an eclectic tour of an era that transformed popular American culture, Densmore will discuss the tormented genius of Jim Morrison, the Doors' singer, and his own fascinating journey from teenage musician to overnight fame.

city 9102

Rock promoter Bill Graham says "John Densmore was on the inside looking out, watching a new world dance to a new psychedelic drummer. He shies his bravado and a sincere respect for the truth".

Oliver Stone, director of the movie The Doors, praises Densmore for his "self-experienced insights as a survivor and a peaker".

John will also play his drums...

If you're a musician, you won't want to miss this class as Densmore discusses The Doors music, how the songs evolved, the legendary recording sessions, the worldwide tours and more. And there will be plenty of time to ask John your personal questions.
