**Should commissioners' expenses on conventions be capped?**

**WILLIAM SMITH**

"I think that all expense accounts are more or less budgeted at the beginning of the year. Each commissioner has a budget figure and when the budget is reached, that is the end of conventions. Commissioners should know what would be beneficial to the Hydro."

**LEN MEDLAND**

"I believe the expenses should be kept at a reasonable level. I know in the past, it has been much too high. That is part of the reason I am running. But I have to look at the information first and see if there is a need for the cap."

**JIM FISHER**

"I believe there should be a cap. There already is a cap for the whole commission but each commissioner should have a cap on their expenses. I also think individual expense amounts should be reviewed once every three years. The expenses kind of vary depending on where you're going. Some conventions are in the U.S., so you would have to fly there. It would naturally cost more for those conventions. We have conventions around Toronto and London where you can drive. I can't really speak about the expenses for the 80's because I was elected in 1988, but now expenses for conventions are more in line; the spending in the three years I have been here has been very normal. We get \$39,000 for the whole commission and we did not spend close to that this year."

**MURT ALLISON**

"The commission as a whole has a budget that is set on an annual basis. Each commissioner is left up to his own discretion. He must make a request to the commission as a whole to be able to spend that money. I think the question is redundant because the budget already has a cap on it."

**SEBASTIAN (JOE) RINDER**

"Definitely - there will be commission conventions where everyone will have to go, but every commissioner should not go to every convention. In '87, '88 and '89, \$33,000 was spent. Compare that with \$17,000 in 1990. So far this year they spent \$15,000. The amount should be the same year after year. You have to eat and drink but it is not necessary for every commissioner to go."

**DOBBIE FRIZZELL**

"I don't think it should be so high. It should be capped because it is classed as an income; a benefit of some kind."

**TOPOLSEK SEEKS RE-ELECTION**

Doris Topolsek, Councillor in the Township of Erin for the past four years seeks your support in the November 12 Municipal Elections.

During my term in office I have, in addition to regular Council business, actively served on a number of committees. As a member of Wellington Recycling Committee, I introduced Blue Bags, Blue Boxes to rural residents, and composters. I have also worked closely with Board members for renovations to the Hillsburgh Community Centre, the development of Jim Bailey Park and a monthly recycling pick-up program for Ballinfad.

If re-elected, I will continue to work conscientiously for — the completion of the Official Plan Update, improvements in waste management, recycling beyond the Blue Box, Ballinfad fringe area study, a soccer pitch in Jim Bailey Park, continuation of the PRIDE program and honest and fair government.

In the interest of conservation I will not be mailing brochures or erecting signs. My campaign message will instead appear in local newspaper which can easily be recycled.

For information please call 519-833-2101.

**ROGER HAGGETT**

"No - there is a set of guidelines which are unreasonable. It should be up to each commissioner to look after their own expenses. If it got out of hand the person has to be accountable - there should be responsibility in spending the taxpayers money."
