### LOFTY VAULTED CEILINGS ENRICH A TRADITIONAL

first level 1484 sq. ft.

second level 1010 sq. ft.

Stately brick detailing, bold multipaned windows and a copper topped bay accentuate the exterior of this three bedroom home. The grand two storey foyer spills to the living and dining rooms. Lofty vaulted ceilings add voluminous space to these areas. The informal area of this home revolves around a kitchen, breakfast room and family room. The gourmet kitchen offers an efficient center cooking island, ample counter work area and a sunny breakfast room. The main floor den, positioned away from the noisy traffic area, can double as an office or guest room. A laundry,

studroom and powder room complete the main level. The angle staircase ascends to a railed gallery upstairs. The large master bedroom features a lavish ensuite with his and hers walk-in closets, double vanity, raised whirlpool spa and shower. The two additional bedrooms, one with a front view bay window, share a three-piece main bathroom with soaking tub. The second level storage room provides an additional 127 square feet of unfinished space. The finished floor area of this family home is 2,494 square feet. Plans include a choice of foundations, crawl space or full basement.
