DUAL ACCESS STAIRCASE CONTROLS TRAFFIC

View of foyer from upper hall

first level 1301 sq. ft.

second level 969 sq. ft.

A colonnade entry opens to a vaulted foyer with unique dual access staircase. The stairs split at a common landing, one leads to the kitchen, the other curves to the foyer. This provides traffic separation from the formal and informal areas of the home. The impressive foyer, with plant ledges above, open to the living and dining rooms; sliding glass doors beyond open to a garden patio. The kitchen provides ample counter preparation and serves the bay window breakfast area. A half wall separates the breakfast bay from the vaulted family room.

A plant ledge lines the ceiling and accentuates its height. Upstairs, the master bedroom boasts a walk-in wardrobe and ensuite with corner-positioned spa and shower. The two additional bedrooms share a three piece main bathroom with soaking tub. The second bedroom rests in a large window bay and provides a 180 degree view. The finished floor area of this home is 2,270 square feet. Plans include a choice of foundations, crawlspace or full basement. Send for Canada's largest plan book with over 500 home

plans, including a wide variety of architectural styles, from luxurious brick manors to affordable bungalows, only \$8.95 including shipping and GST. To order using Visa or Mastercard call toll free 1-800-663-6739 or send cheque or money order to Home of The Week, c/o the Halton Hills Herald, 382 West Broadway, Vancouver, B.C. V5Y 1R2.
