## BOUCHER ALUMINUM

RANCHER WITH A VERSATILE LOOK

1883 sq. ft.

The exterior of this single level design may be finished in California stucco or horizontal siding and with the garage opening to the side or front of the home; rooflines vary with each finish. The covered porch, with skylights, welcomes guests to this three bedroom or two bedroom and den design. Decorative columns line the foyer and introduce the living, dining and family room. A tall, full width window wall and a high ceiling in the living and dining rooms create a sense of spaciousness and gives this

area the impression of being much larger. The gourmet kitchen, with expansive counter space and angled sink, serves the breakfast room. French doors from the breakfast room open to the sunny rear deck. A plant ledge visually zones the foyer from the vaulted family room.

The master bedroom boasts a vaulted ceiling, private access to the rear deck, walk-in closet and lavish ensuite with a whirlpool spa. The two additional bedrooms share a main bathroom with soaking tub.

The finished floor area of this home is 1,883 square feet. Plans include a choice of foundations, crawlspace or full basement.

Send for Canada's largest plan book with over 500 home plans, including a wide
