VERANDAH PROVIDES WRAP AROUND CHARM

A wrap-around veranda, multipaned shuttered windows and decorative trim adorn this charming four bedroom design. Large bay windows and high ceilings throughout the first level add to the feeling of spaciousness. The living room, with masonry fireplace, extends to the bay-windowed dining area. The kitchen with its eating or serving bars and center preparation island enhance meal preparation and provide flexibility for quick counter top meals. The ad-

joining sunny bayed breakfast area opens to a rear, railed veranda.

Upstairs, the master bedroom and ensuite rest in large window bays; the master bedroom window encourages a sitting area. The ensuite boasts twin vanities, whirlpool spa and shower. The three additional bedrooms, each with spacious wall closets or walk-in closets, share a main bathroom with soaking tub.

The finished floor area of this family home is 2,381 square feet. Plans include a choice of foundations, crawl space or full basement.

Send for Canada's largest plan book with over 500 home plans, including a wide variety of architectural styles, from luxurious brick manors to affordable
