RAILED GALLERY VIEWS VAULTED FOYER

This three bedroom, 2,252 square foot design offers two attractive exterior finishes, horizontal siding with brick detailing or California stucco. A plant ledge visually separates the vaulted foyer from the sunken living room. The vaulted ceilings continue through the living room enhancing the spaciousness throughout this area. A coffered ceiling, optional buffet recess and elegant archway distinguish the dining room. The kitchen, with centre cooking island, adjoins a sunny breakfast and family room. The den, positioned off the foyer is an ideal in-home

office. The curved staircase ascends to a railed gallery which views the foyer below. The master bedroom boasts a coffered ceiling, walk-in closet and ensuite with raised spa tucked in a bay window and shower. The two additional bedrooms share a main bathroom with soaking tub. The bonus room provides an additional 183 square feet of living space and may be used as an extra bedroom, game room or media centre.
