

WARNING!

ONTARIO LABOUR MINISTER, BOB MACKENZIE

Don't let the smile fool you.

This man is threatening jobs.

WHO IS THIS MAN?

- Bob Mackenzie, Minister of Labour in Ontario's NDP Government.
- Union organizer for the United Steelworkers of America for 12 years.
- Sponsor of the NDP Government's plan to make major changes to Ontario's Labour Relations Act and seriously upset the balance between management and labour.

WHY ARE ONTARIO JOBS AT RISK?

- Two comprehensive economic impact surveys found the government's plan, if implemented, could cost half a million jobs. Your own business or job could be at risk.
- One study found that \$20 billion in investment could be lost.
- Canadian and international business owners and investors are closely watching the progress of these proposed legislative changes, and are viewing them very unfavourably.

Tell Bob Mackenzie:

- You're worried about what his government's plan will do to the economy and your job.
- His government should stimulate business and consumer confidence.
- The proposed laws destroy confidence and kill jobs and investment.
- You want his government to scrap the proposed labour law changes.

WHAT THE GOVERNMENT ISN'T SAYING

- In the last year, under the NDP Government's rule, one Ontario business went bankrupt on average every two and a half hours.
- In the last year, under the NDP Government's rule, one Ontario worker lost his or her job on average every five minutes.
- Numerous public opinion polls indicate that there is no public demand for these changes, but that Ontarians would prefer the government focus on measures to improve the economy and not merely favour unions.

WHAT YOU CAN DO

- Call or fax Labour Minister Bob Mackenzie and tell him the impact his government's plan will have on your job or your business and the jobs it provides.
- Call or fax your local Ontario MPP and tell him or her the impact this plan will have on your job or your business and the jobs it provides.
- Talk about this issue to everyone you know and encourage them to contact Bob Mackenzie and their local MPP as well.
