Winter driving doesn't have to be hazardous

Even experienced drivers can find their nerves and skills tested by winter road conditions throughout Ontario. The County of Wellington OPP remind drivers of some safety tips to help you if the weather turns cold and nasty....

Winter Travel Safety Tips

- In the winter, always keep your gas tank over half full. If you do get stuck or stranded, the car motor may be your only source of heat.
- Make sure your windshield wipers are in good shape. Winter wipers - with the rubber coverings that keep ice from collecting on the blade - are great, they resist freezing and usually work better on your windshield.
- Check windshield washer fluid level, and keep a spare full one in the trunk. On a snowy or slushy day, you can easily go through two or three litres of fluid trying to keep your windshield clean.

• Check tire pressure, tire condition, and spare tire pressure regularly. Tires lose on the average 1 pound per month through normal leakage.

• Be prepared for the unexpected emergency. Carry a First Aid kit, ice scraper, snow brush, matches, candles, flashlight, warning triangles, flares, tow and battery jumping cables, folding shovel, a bag of sand, a blanket, winter gloves, cell phone if you have one, and an emergency HELP sign that you can put in the back window if you need help.

• Remember to clean all of your car's windows, mirrors and lights of snow and ice build-up.

Always leave yourself plenty of time to get to your destination. Leave early and drive slowly, and be cautious and courteous with other drivers. Keep plenty of distance from your car and the auto ahead.
