

# HITS HALTON HILLS

Thousands of people woke up early and bundled up in their best red and white winter clothing to cheer on the Olympic flame as it travelled through Halton Hills on December 19. A symphony of cheers, applause and encouragement greeted the 25 torchbearers as they carried the flame through Norval, Georgetown and Acton. To document this memorable moment in Halton Hills history, *In Focus* and *The Independent & Free Press* sent five photographers to capture all the smiles, tears and cheers as residents got in the Olympic spirit and showed support for Canadian athletes.
